SEACOR HOLDINGS INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

1. BASIS OF PRESENTATION AND ACCOUNTING POLICY

The condensed consolidated financial information for the three and six months ended June 30, 2014 and 2013 has been prepared by the Company and has not been audited by its independent registered public accounting firm. The condensed consolidated financial statements include the accounts of SEACOR Holdings Inc. and its consolidated subsidiaries. In the opinion of management, all adjustments (consisting of normal recurring adjustments) have been made to fairly present the Company's financial position as of June 30, 2014, its results of operations for the three and six months ended June 30, 2014 and 2013, its changes in equity for the six months ended June 30, 2014, and its cash flows for the six months ended June 30, 2014 and 2013. Results of operations for the interim periods presented are not necessarily indicative of operating results for the full year or any future periods.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the financial statements and related notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Unless the context otherwise indicates, any reference in this Quarterly Report on Form 10-Q to the "Company" refers to SEACOR Holdings Inc. and its consolidated subsidiaries and any reference in this Quarterly Report on Form 10-Q to "SEACOR" refers to SEACOR Holdings Inc. Capitalized terms used and not specifically defined herein have the same meaning as such defined terms used in the Company's Annual report on Form 10-K for the year ended December 31, 2013.

Discontinued Operations (see Note 15). The Company reports disposed businesses as discontinued operations when it has no continuing interest in the business. Discontinued operations includes the historical financial position, results of operations and cash flows of the operations previously reported as discontinued in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Revenue Recognition. The Company recognizes revenue when it is realized or realizable and earned. Revenue is realized or realizable and earned when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the price to the buyer is fixed or determinable, and collectability is reasonably assured. Revenue that does not meet these criteria is deferred until the criteria are met. Deferred revenues, included in other current liabilities, for the six months ended June 30, were as follows (in thousands):

	 2014	2013
Balance at beginning of period	\$ 6,592	\$ 6,592
Revenues deferred during the period	 202	
Balance at end of period	\$ 6,794	\$ 6,592

As of June 30, 2014 and 2013, the Company's deferred revenues related to the time charter of several offshore support vessels scheduled to be paid through the conveyance of an overriding royalty interest (the "Conveyance") in developmental oil and gas producing properties operated by a customer in the U.S. Gulf of Mexico. Payments under the Conveyance, and the timing of such payments, were contingent upon production and energy sale prices. On August 17, 2012, the customer filed a voluntary petition for chapter 11 bankruptcy, which was converted to chapter 7 in June 2014. The Company is vigorously defending its interest in connection with the bankruptcy filing; however, payments received under the Conveyance subsequent to August 17, 2012 and during the 90 days prior to the filing are subject to bankruptcy court approval. The Company will recognize revenues as approved by the bankruptcy court. All costs and expenses related to these charters were recognized as incurred.

Accumulated Other Comprehensive Income (Loss). The components of accumulated other comprehensive income (loss) were as follows:

		SEACOR Holdings Inc. Stockholders' Equity								Noncontrolling Interests				
	Foreign Currency Translation Adjustments		Derivative Losses on Cash Flow Hedges, net		Other Total		Total	Foreign Currency Translation Adjustments		Other		Co	Other emprehensive Income	
December 31, 2013	\$	(927)	\$	(257)	\$	(8)	\$	(1,192)	\$	395	\$	(5)		
Other comprehensive income		1,988		192				2,180		239			\$	2,419
Income tax expense		(696)		(67)				(763)						(763)
Six months ended June 30, 2014	\$	365	\$	(132)	\$	(8)	\$	225	\$	634	\$	(5)	\$	1,656

New Accounting Pronouncement. On May 28, 2014, the Financial Accounting Standards Board issued a comprehensive new revenue recognition standard that will supersede nearly all existing revenue recognition guidance under generally accepted accounting principles in the United States. The core principal of the new standard is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The new standard is effective for annual and interim periods beginning after December 15, 2016 and early adoption is prohibited. The Company has not yet determined what impact, if any, the adoption of the new standard will have on its consolidated financial position, results of operations or cash flows.

Reclassifications. Certain reclassifications of prior period information have been made to conform to the presentation of the current period information. These reclassifications had no effect on net income as previously reported.

2. FAIR VALUE MEASUREMENTS

The fair value of an asset or liability is the price that would be received to sell an asset or transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Company utilizes a fair value hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value and defines three levels of inputs that may be used to measure fair value. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, or inputs derived from observable market data. Level 3 inputs are unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The Company's financial assets and liabilities as of June 30, 2014 that are measured at fair value on a recurring basis were as follows (in thousands):

	Level 1	Level 2	Level 3
ASSETS			
Marketable securities ⁽¹⁾	\$ 33,275	\$ _	\$ _
Derivative instruments (included in other receivables)	2,012	4,442	_
Construction reserve funds and Title XI reserve funds	324,856	_	
LIABILITIES			
Short sale of marketable securities (included in other current liabilities)	10,061	_	_
Derivative instruments (included in other current liabilities)	2,043	1,016	_

⁽¹⁾ Marketable security gains, net include unrealized gains of \$0.7 million and \$6.5 million for the three months ended June 30, 2014 and 2013, respectively, related to marketable security positions held by the Company as of June 30, 2014. Marketable security gains, net include unrealized gains of \$5.7 million and \$10.5 million for the six months ended June 30, 2014 and 2013, respectively, related to marketable security positions held by the Company as of June 30, 2014.

The estimated fair values of the Company's other financial assets and liabilities as of June 30, 2014 were as follows (in thousands):

				e			
	Carrying Amount		Level 1	Level 2		Le	evel 3
ASSETS			· ·	· ·			
Cash, cash equivalents and restricted cash	\$	467,761	\$ 467,761	\$	_	\$	—
Investments, at cost, in 50% or less owned companies (included in other		9.331	see below				
assets)		9,331	see below				
Notes receivable from third parties (included in other receivables and other assets)		20,228	see below				
LIABILITIES							
Long-term debt, including current portion ⁽¹⁾		873,860	_		1,055,228		_

⁽¹⁾ The estimated fair value includes the conversion options on the Company's 2.5% and 3.0% Convertible Senior Notes.

The carrying value of cash, cash equivalents and restricted cash approximates fair value. The fair value of the Company's long-term debt was estimated based upon quoted market prices or by using discounted cash flow analyses based on estimated current rates for similar types of arrangements. It was not practicable to estimate the fair value of the Company's investments, at cost, in 50% or less owned companies because of the lack of quoted market prices and the inability to estimate fair value without incurring excessive costs. It was not practicable to estimate the fair value of the Company's notes receivable from third parties as the overall returns are uncertain due to certain provisions for additional payments contingent upon future events. Considerable judgment was required in developing certain of the estimates of fair value and, accordingly, the estimates presented herein are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

The Company's non-financial assets and liabilities that were measured at fair value during the six months ended June 30, 2014 were as follows (in thousands):

	 Level 1	Level 2		Level 3
ASSETS				
Long-lived assets held for sale ⁽¹⁾	\$ 	\$ 11.	,700 \$	

During the six months ended June 30, 2014, the Company recognized impairment charges of \$3.9 million related to two aircraft following the adjustment of their carrying value to fair value based on the expected sales price of each.

3. DERIVATIVE INSTRUMENTS AND HEDGING STRATEGIES

Derivative instruments are classified as either assets or liabilities based on their individual fair values. Derivative assets and liabilities are included in other receivables and other current liabilities, respectively, in the accompanying condensed consolidated balance sheets. The fair values of the Company's derivative instruments as of June 30, 2014 were as follows (in thousands):

	Derivative Asset		Derivative Liability	
Forward currency exchange, option and future contracts	\$	92 \$	60	
Interest rate swap agreements		_	998	
Commodity swap, option and future contracts:				
Exchange traded	2,0	12	1,983	
Non-exchange traded	4,3	50	18	
	\$ 6,4	54 \$	3,059	

Cash Flow Hedges. As of June 30, 2014, the Company had no interest rate swap agreements designated as cash flow hedges. As of June 30, 2014, one of the Company's Offshore Marine Services 50% or less owned companies had an interest rate swap agreement maturing in 2015 that has been designated as a cash flow hedge. This instrument calls for this company to pay a fixed interest rate of 1.48% on the amortized notional value of \$16.1 million and receive a variable interest rate based on LIBOR on the amortized notional value. Subsequent to June 30, 2014, this interest rate swap was dedesignated. As of June 30, 2014, one of the Company's Inland River Services 50% or less owned companies had two interest rate swap agreements with maturities in 2015 that have been designated as cash flow hedges. These instruments call for this company to pay fixed rates of interest ranging

from 1.53% to 1.62% on the aggregate amortized notional value of \$18.8 million and receive a variable interest rate based on LIBOR on the aggregate amortized notional value. Additionally, as of June 30, 2014, one of the Company's Shipping Services 50% or less owned companies had an interest rate swap agreement maturing in 2017 that has been designated as a cash flow hedge. The instrument calls for this company to pay a fixed interest rate of 2.79% on the amortized notional value of \$36.2 million and received a variable interest rate based on LIBOR on the amortized notional value. By entering into these interest rate swap agreements, the Company's 50% or less owned companies have converted the variable LIBOR component of certain of their outstanding borrowings to a fixed interest rate.

Other Derivative Instruments. The Company recognized gains (losses) on derivative instruments not designated as hedging instruments for the six months ended June 30 as follows (in thousands):

	 2014	2013
Options on equities and equity indices	\$ 22	\$ (3,012)
Forward currency exchange, option and future contracts	187	(592)
Interest rate swap agreements	(135)	237
Commodity swap, option and future contracts:		
Exchange traded	950	(821)
Non-exchange traded	(1,167)	1,256
	\$ (143)	\$ (2,932)

The Company holds positions in publicly traded equity options that convey the right or obligation to engage in a future transaction on the underlying equity security or index. The Company's investment in equity options primarily includes positions in energy, marine, transportation and other related businesses. These contracts are typically entered into to mitigate the risk of changes in the market value of marketable security positions that the Company is either about to acquire, has acquired or is about to dispose of.

The Company enters and settles forward currency exchange, option and future contracts with respect to various foreign currencies. As of June 30, 2014, the outstanding forward currency exchange contracts translated into a net purchase of foreign currencies with an aggregate U.S. dollar equivalent of \$4.7 million. These contracts enable the Company to buy currencies in the future at fixed exchange rates, which could offset possible consequences of changes in currency exchange rates with respect to the Company's business conducted outside of the United States. The Company generally does not enter into contracts with forward settlement dates beyond twelve to eighteen months.

The Company has entered into various interest rate swap agreements with maturities ranging from 2014 through 2018 that call for the Company to pay fixed interest rates ranging from 3.00% to 3.05% on an aggregate amortized notional value of \$34.5 million and receive a variable interest rate based on LIBOR or Euribor on these aggregate amortized notional values. As of June 30, 2014, one of the Company's Offshore Marine Services 50% or less owned companies has an interest rate swap agreement maturing in 2018 that calls for this company to pay a fixed interest rate of 1.30% on the amortized notional value of \$98.3 million and receive a variable interest rate based on LIBOR on the amortized notional value. Additionally, another one of the Company's Offshore Marine Services 50% or less owned companies has two interest rate swap agreements maturing in 2020 that call for this company to pay fixed interest rates ranging from 1.89% to 2.27% on the aggregate amortized notional value of \$24.9 million and receive a variable interest rate based on LIBOR on the amortized notional value. As of June 30, 2014, one of the Company's Shipping Services 50% or less owned companies has six interest rate swap agreements with maturities ranging from 2018 to 2020 that call for this company to pay fixed rates of interest ranging from 2.96% to 5.40% on the aggregate amortized notional value of \$126.0 million and receive a variable interest rate based on LIBOR on the aggregate amortized notional value. The general purpose of these interest rate swap agreements is to provide protection against increases in interest rates, which might lead to higher interest costs for the Company or its 50% or less owned companies.

The Company enters and settles positions in various exchange and non-exchange traded commodity swap, option and future contracts. ICP enters into exchange traded positions (primarily corn) to protect its raw material and finished goods inventory balance from market changes. In the Company's agricultural commodity trading and logistics business, fixed price future purchase and sale contracts for sugar are included in the Company's non-exchange traded derivative positions. The Company enters into exchange traded positions to protect these purchase and sale contracts as well as its inventory balances from market changes. As of June 30, 2014, the net market exposure to corn and sugar under these contracts was not material. The Company also enters into exchange traded positions (primarily natural gas, heating oil, crude oil, gasoline, corn and sugar) to provide value to the Company should there be a sustained decline in the price of commodities that could lead to a reduction in the market values and cash flows of the Company's Offshore Marine Services, Inland River Services and Shipping Services businesses. As of June 30, 2014, none of these types of positions were outstanding.

4. BUSINESS ACQUISITIONS

C-Lift Acquisition. On June 6, 2013, the Company acquired a controlling interest in C-Lift through the acquisition of its partner's 50% equity interest for \$13.3 million in cash. C-Lift owned and operated two liftboats in the U.S. Gulf of Mexico. The Company performed a fair value analysis and the purchase price was allocated to the acquired assets and liabilities based on their fair values resulting in no goodwill being recorded. The preliminary fair value analysis was finalized in March 2014.

Witt O'Brien's. Subsequent to June 30, 2014, the Company acquired a controlling interest in Witt O'Brien's, a global leader in preparedness, crisis management, and disaster response and recovery, through the acquisition of its partner's 45.8% equity interest for \$35.4 million (see Note 6).

5. EQUIPMENT ACQUISITIONS, DISPOSITIONS AND DEPRECIATION AND IMPAIRMENT POLICIES

During the six months ended June 30, 2014, capital expenditures were \$273.7 million, including \$148.3 million of progress payments toward the construction of three U.S.-flag product tankers. Equipment deliveries during the period included two crew boats, one supply boat, one wind farm utility vessel, 65 inland river dry-cargo barges and one inland river towboat.

During the six months ended June 30, 2014, the Company sold five crew boats, three supply boats, one wind farm utility vessel, one U.S.-flag product tanker, which was leased back, one foreign-flag short-sea container/RORO vessel and other property and equipment for net proceeds of \$100.9 million (\$75.3 million in cash and \$25.6 million in seller financing) and gains of \$50.6 million, of which \$10.2 million were recognized currently and \$40.4 million were deferred. In addition, the Company recognized previously deferred gains of \$2.7 million. The Company also received deposits of \$2.7 million related to future offshore support vessel sales.

The Company has sold certain equipment to its 50% or less owned companies, entered into vessel sale-leaseback transactions with finance companies, and provided seller financing on sales of its equipment to third parties and its 50% or less owned companies. A portion of the gains realized from these transactions were deferred and recorded in deferred gains and other liabilities in the accompanying condensed consolidated balance sheets. Deferred gain activity related to these transactions for the six months ended June 30 was as follows (in thousands):

	2014	2013
Balance at beginning of period	\$ 124,763	\$ 111,514
Adjustments to deferred gains arising from asset sales	40,445	2,289
Amortization of deferred gains included in operating expenses as a reduction to rental expense	(7,155)	(5,192)
Amortization of deferred gains included in gains on asset dispositions and impairments, net	(2,656)	(1,431)
Balance at end of period	\$ 155,397	\$ 107,180

Equipment, stated at cost, is depreciated using the straight-line method over the estimated useful life of the asset to an estimated salvage value. With respect to each class of asset, the estimated useful life is based upon a newly built asset being placed into service and represents the point at which it is typically not justifiable for the Company to continue to operate the asset in the same or similar manner. From time to time, the Company may acquire older assets that have already exceeded the Company's useful life policy, in which case the Company depreciates such assets based on its best estimate of remaining useful life, typically the next survey or certification date.

As of June 30, 2014, the estimated useful life (in years) of each of the Company's major categories of new equipment was as follows:

Offshore support vessels (excluding wind farm utility)	20
Wind farm utility vessels	10
Inland river dry-cargo and deck barges	20
Inland river liquid tank barges	25
Inland river towboats	25
U.Sflag product tankers	25
Short-sea Container/RORO ⁽¹⁾ vessels	20
Harbor tugs	25
Ocean liquid tank barges	25
Terminal and manufacturing facilities	20
(1) Roll on/Roll off ("RORO").	
(NONO).	

The Company performs an impairment analysis of long-lived assets used in operations, including intangible assets, when indicators of impairment are present. If the carrying value of the assets is not recoverable, as determined by the estimated undiscounted cash flows, the carrying value of the assets is reduced to fair value. Generally, fair value is determined using valuation techniques, such as expected discounted cash flows or appraisals, as appropriate. During the six months ended June 30, 2014, the Company recognized impairment charges of \$3.9 million related to two aircraft.

6. INVESTMENTS, AT EQUITY, AND ADVANCES TO 50% OR LESS OWNED COMPANIES

Mexmar. Mexmar operates offshore support vessels in Mexico. During the six months ended June 30, 2014, Mexmar purchased two offshore support vessels from the Company for \$32.0 million (\$6.4 million in cash and \$25.6 million in seller financing). During the six months ended June 30, 2014, Mexmar repaid \$2.6 million of the seller financing.

OSV Partners. OSV Partners was formed to own and operate six offshore support vessels. During the six months ended June 30, 2014, the Company contributed additional capital of \$1.6 million to fund certain capital acquisitions. During the six months ended June 30, 2014, OSV Partners purchased one offshore support vessel from the Company for \$13.5 million in cash.

SCFCo Holdings. SCFCo Holdings was established to operate towboats and dry-cargo barges on the Parana-Paraguay Rivers and a terminal facility at Port Ibicuy, Argentina. During the six months ended June 30, 2014, the Company and its partner each contributed additional capital of \$12.2 million. As of June 30, 2014, the Company had outstanding loans to SCFCo Holdings of \$3.7 million.

SeaJon. SeaJon owns an articulated tug-barge operating in the Great Lakes trade. During the six months ended June 30, 2014, the Company and its partner each contributed additional capital of \$1.3 million to fund certain capital acquisitions.

Avion. Avion is a distributor of aircraft and aircraft related parts. During the six months ended June 30, 2014, Avion repaid \$4.0 million of outstanding notes to the Company.

Witt-O'Brien's. Witt-O'Brien's is a global leader in preparedness, crisis management, and disaster response and recovery. During the six months ended June 30, 2014, the Company received distributions of \$0.8 million from Witt-O'Brien's. Subsequent to June 30, 2014, the Company acquired a controlling interest in Witt-O'Brien's through the acquisition of its partner's 45.8% equity interest for \$35.4 million (see Note 4).

Cleancor. On August 20, 2013, CLEANCOR Energy Solutions LLC ("Cleancor") was established to be a full service solution provider delivering clean fuel to end users. During the six months ended June 30, 2014, the Company contributed capital of \$4.8 million to Cleancor to fund its start-up operations and provide capital for future investments.

Other. During the six months ended June 30, 2014, the Company received a capital distribution of \$2.1 million from one of Inland River Services' 50% or less owned companies, loaned \$0.7 million to one of Offshore Marine Services' 50% or less owned companies and contributed capital of \$0.2 million and loaned \$0.3 million to certain of its industrial aviation businesses in Asia.

Guarantees. The Company has guaranteed the payment of amounts owed by one of its 50% or less owned companies under a vessel charter and has guaranteed amounts owed under banking facilities by certain of its 50% or less owned companies. As of June 30, 2014, the total amount guaranteed by the Company under these arrangements was \$15.3 million. In addition, as of June 30, 2014, the Company had uncalled capital commitments to two of its 50% or less owned companies for a total of \$2.4

million. Subsequent to June 30, 2014, the Company's guarantees increased by \$19.0 million after certain of the Company's 50% or less owned companies obtained bank financing.

7. COMMITMENTS AND CONTINGENCIES

As of June 30, 2014, the Company's unfunded capital commitments were \$412.8 million and included: \$86.5 million for 13 offshore support vessels; \$1.1 million for two inland river tank barges; \$4.6 million for four inland river towboats; \$230.2 million for three U.S.-flag product tankers; \$78.4 million for one U.S.-flag articulated tug-barge; and \$12.0 million for other equipment and improvements. These commitments are payable as follows: \$99.7 million is payable during the remainder of 2014; \$303.8 million is payable during 2015-2016; and \$9.3 million is payable during 2017.

On July 20, 2010, two individuals purporting to represent a class commenced a civil action in the Civil District Court for the Parish of Orleans in the State of Louisiana, John Wunstell, Jr. and Kelly Blanchard v. BP, et al., No. 2010-7437 (Division K) (the "Wunstell Action"), in which they assert, among other theories, that Mr. Wunstell suffered injuries as a result of his exposure to certain noxious fumes and chemicals in connection with the provision of remediation, containment and response services by ORM, a subsidiary of the Company prior to the ORM Transaction, during the *Deepwater Horizon* oil spill response and clean-up in the U.S Gulf of Mexico. The action now is part of the overall multi-district litigation, In re Oil Spill by the Oil Rig "*Deepwater Horizon*", MDL No. 2179 filed in the U.S. District Court for the Eastern District of Louisiana ("MDL"). The complaint also seeks to establish a "class-wide court-supervised medical monitoring program" for all individuals "participating in BP's Deepwater Horizon Vessels of Opportunity Program and/or Horizon Response Program" who allegedly experienced injuries similar to those of Mr. Wunstell. The Company believes this lawsuit has no merit and will continue to vigorously defend the action and pursuant to contractual agreements with the responsible party, the responsible party has agreed, subject to certain potential limitations, to indemnify and defend ORM in connection with the Wunstell Action and claims asserted in the MDL, discussed further below. Although the Company is unable to estimate the potential exposure, if any, resulting from this matter, the Company does not expect it will have a material effect on the Company's consolidated financial position, results of operations or cash flows.

On December 15, 2010, ORM and NRC, subsidiaries of the Company prior to the ORM Transaction and SES Business Transaction, respectively, were named as defendants in one of the several consolidated "master complaints" that have been filed in the overall MDL. The master complaint naming ORM and NRC asserts various claims on behalf of a putative class against multiple defendants concerning the cleanup activities generally, and the use of dispersants specifically. By court order, the Wunstell Action has been stayed as a result of the filing of the referenced master complaint. The Company believes that the claims asserted against ORM and NRC in the master complaint have no merit and on February 28, 2011, ORM and NRC moved to dismiss all claims against them in the master complaint on legal grounds. On September 30, 2011, the Court granted in part and denied in part the motion to dismiss that ORM and NRC had filed (an amended decision was issued on October 4, 2011 that corrected several grammatical errors and non-substantive oversights in the original order). Although the Court refused to dismiss the referenced master complaint in its entirety at that time, the Court did recognize the validity of the "derivative immunity" and "implied preemption" arguments that ORM and NRC advanced and directed ORM and NRC to (i) conduct limited discovery to develop evidence to support those arguments and (ii) then re-assert the arguments. The Court did, however, dismiss all state-law claims and certain other claims that had been asserted in the referenced master complaint, and dismissed the claims of all plaintiffs that have failed to allege a legally-sufficient injury. A schedule for limited discovery and motion practice was established by the Court and, in accordance with that schedule, ORM and NRC filed for summary judgment re-asserting their derivative immunity and implied preemption arguments on May 18, 2012. Those motions were argued on July 13, 2012 and are still pending decision. In addition to the indemnity provided to ORM, pursuant to contractual agreements with the responsible party, the responsible party has agreed, subject to certain potential limitations, to indemnify and defend ORM and NRC in connection with these claims in the MDL. Although the Company is unable to estimate the potential exposure, if any, resulting from this matter, the Company does not expect it will have a material effect on the Company's consolidated financial position, results of operations or cash flows.

Subsequent to the filing of the referenced master complaint, ten additional individual civil actions have been filed in or removed to the U.S. District Court for the Eastern District of Louisiana concerning the clean-up activities generally, which name the Company, ORM and/or NRC as defendants or third-party defendants and are part of the overall MDL. By court order, all of these additional individuals' cases have been stayed until further notice. On April 8, 2011, ORM was named as a defendant in Johnson Bros. Corporation of Louisiana v. BP, PLC, et al., No. 2:11-CV-00781 (E.D. La.), which is a suit by an individual business seeking damages allegedly caused by a delay on a construction project alleged to have resulted from the clean-up operations. On April 13, 2011, the Company was named as a defendant in Mason v. Seacor Marine, LLC, No. 2:11-CV-00826 (E.D. La.), an action in which plaintiff, a former employee, alleges sustaining personal injuries in connection with responding to the explosion and fire, but also in the months thereafter in connection with the clean-up of oil and dispersants while a member of the crew of the M/V Seacor Vanguard. Although the case is subject to the MDL Court's stay of individual proceedings, the employee moved to sever his case from the MDL on July 16, 2012, which the Court denied on March 5, 2013. The employee filed a motion asking the Court to reconsider, which was denied on May 3, 2013, and the employee filed a Notice of Appeal to the U.S. Court of Appeals for the Fifth Circuit ("Fifth Circuit") on May 22, 2013. On July 24, 2013, the Company filed a motion to dismiss for lack of appellate jurisdiction, which was granted on August 16, 2013. The same company employee has also brought a claim in the M/

V Seacor Vanguard vessel's limitation action in the MDL which relates to any actions that may have been taken by vessels owned by the Company to extinguish the fire On April 15, 2011, ORM and NRC were named as defendants in James and Krista Pearson v. BP Exploration & Production, Inc. ("BP Exploration"), et al., No. 2:11-CV-00863 (E.D. La.), which is a suit by a husband and wife, who allegedly participated in the clean-up effort and are seeking damages for personal injury, property damage to their boat, and amounts allegedly due under contract. On April 15, 2011, ORM and NRC were named as defendants in Thomas Edward Black v. BP Exploration, et al., No. 2:11-CV-00867 (E.D. La.), which is a suit by an individual who is seeking damages for lost income because he allegedly could not find work in the fishing industry after the oil spill. On April 20, 2011, a complaint was filed in Darnell Alexander, et al. v. BP, PLC, et al., No. 2:11-CV-00951 (E.D. La.) on behalf of 117 individual plaintiffs that seek to adopt the allegations made in the referenced master complaint against ORM and NRC (and the other defendants). Plaintiffs in this matter have since been granted leave to amend their complaint to include 410 additional individual plaintiffs. On October 3, 2012, ORM and NRC were served with a Rule 14(c) Third-Party Complaint by Jambon Supplier II, L.L.C. and Jambon Marine Holdings L.L.C. in their Limitation of Liability action, In the Matter of Jambon Supplier II, L.L.C., et al., No. 2:12-CV-00426 (E.D. La.). This Third-Party Complaint alleges that if claimant David Dinwiddie, who served as a clean-up crewmember aboard the M/V JAMBON SUPPLIER II vessel during the clean-up efforts, was injured as a result of his exposure to dispersants and chemicals during the course and scope of his employment, then said injuries were caused by the third-party defendants. On November 25, 2012, ORM was named as a defendant in Victoria Sanchez v. American Pollution Control Corp. et al., No. 2:12-CV-00164 (E.D. La.), a maritime suit filed by an individual who allegedly participated in the clean-up effort and sustained personal injuries during the course of such employment. On December 17, 2012, the Court unsealed a False Claims Act lawsuit naming ORM as a defendant, Dillon v. BP, PLC et al., No. 2:12-CV-00987 (E.D. La.)., which is a suit by an individual seeking damages and penalties arising from alleged false reports and claims made to the federal government with respect to the amount of oil burned and dispersed during the clean-up. The federal government has declined to intervene in this suit. On April 8, 2013, the Company, ORM, and NRC were named as defendants in William and Dianna Fitzgerald v. BP Exploration et al., No. 2:13-CV-00650 (E.D. La.), which is a suit by a husband and wife whose son allegedly participated in the clean-up effort and became ill as a result of his exposure to oil and dispersants. Finally, on April 17, 2013, ORM was named as a defendant in Danos et al. v. BP America Production Co. et al., No. 2:13-CV-03747 (removed to E.D. La.), which is a suit by eight individuals seeking damages for dispersant exposure either as a result of their work during clean-up operations or as a result of their residence in the Gulf. The Company is unable to estimate the potential exposure, if any, resulting from these matters but believes they are without merit and does not expect that they will have a material effect on its consolidated financial position, results of operations or cash flows.

On February 18, 2011, Triton Asset Leasing GmbH, Transocean Holdings LLC, Transocean Offshore Deepwater Drilling Inc., and Transocean Deepwater Inc. (collectively "Transocean") named ORM and NRC as third-party defendants in a Rule 14(c) Third-Party Complaint in Transocean's own Limitation of Liability Act action, which is part of the overall MDL, tendering to ORM and NRC the claims in the referenced master complaint that have already been asserted against ORM and NRC. Transocean, Cameron International Corporation, Halliburton Energy Services, Inc., and M-I L.L.C. also filed cross-claims against ORM and NRC for contribution and tort indemnity should they be found liable for any damages in Transocean's Limitation of Liability Act action and ORM and NRC have asserted counterclaims against those same parties for identical relief. Weatherford U.S., L.P. and Weatherford International, Inc. (collectively "Weatherford") had also filed cross-claims against ORM and NRC, but moved to voluntarily dismiss these cross-claims without prejudice on February 8, 2013. The Court granted Weatherford's motion that same day. Transocean's limitation action, and thus the remainder of the aforementioned cross-claims, remains pending. As indicated above, the Company is unable to estimate the potential exposure, if any, resulting from these actions but believes they are without merit and does not expect that these matters will have a material effect on its consolidated financial position, results of operations or cash flows.

On November 16, 2012, 668 individuals who served as beach clean-up workers in Escambia County, Florida during the Deepwater Horizon oil spill response commenced a civil action in the Circuit Court for the First Judicial Circuit of Florida, in and for Escambia County, Abney et al. v. Plant Performance Services, LLC et al., No. 2012-CA-002947, in which they allege, among other things, that ORM and other defendants engaged in the contamination of Florida waters and beaches in violation of Florida Statutes Chapter 376 and injured the plaintiffs by exposing them to dispersants during the course and scope of their employment. The case was removed to the U.S. District Court for the Northern District of Florida on January 13, 2013, Abney et al. v. Plant Performance Services, LLC et al., No. 3:13-CV-00024 (N.D. Fla.), and on January 16, 2013, the United States Judicial Panel on Multidistrict Litigation ("JPML") issued a Conditional Transfer Order ("CTO") transferring the case to the MDL, subject to any timely-filed notice of objection from the plaintiffs. Upon receipt of a notice of objection from the plaintiffs, a briefing schedule was set by the JPML, and so a stay of proceedings and suspension of deadlines was sought and obtained by the Court in the U.S. District Court for the Northern District of Florida. Following briefing before the JPML, the case was transferred to the U.S. District Court for the Eastern District of Louisiana and consolidated with the MDL on April 2, 2013. On April 22, 2013, a companion case to this matter was filed in the U.S. District Court for the Northern District of Florida, Abood et al. v. Plant Performance Services, LLC et al., No. 3:13-CV-00284 (N.D. Fla.), which alleges identical allegations against the same parties but names an additional 174 plaintiffs, all of whom served as clean-up workers in various Florida counties during the Deepwater Horizon oil spill response. A CTO was issued by the JPML on May 2, 2013, no objection was filed by the plaintiffs, and the case was transferred to the U.S. District Court for the Eastern District of Louisiana and consolidated with the MDL on May 10, 2013. By court order,

both of these matters have been stayed until further notice. The Company is unable to estimate the potential exposure, if any, resulting from these matters but believes they are without merit and does not expect that these matters will have a material effect on its consolidated financial position, results of operations or cash flows.

Separately, on March 2, 2012, the Court announced that BP Exploration and BP America Production Company ("BP America") (collectively "BP") and the plaintiffs had reached an agreement on the terms of two proposed class action settlements that will resolve, among other things, plaintiffs' economic loss claims and clean-up related claims against BP. The parties filed their proposed settlement agreements on April 18, 2012 along with motions seeking preliminary approval of the settlements. The Court held a hearing on April 25, 2012 to consider those motions and preliminarily approved both settlements on May 2, 2012. A final fairness hearing took place on November 8, 2012. The Court granted final approval to the Economic and Property Damages Class Action Settlement ("E&P Settlement") on December 21, 2012, and granted final approval to the Medical Benefits Class Action Settlement ("Medical Settlement") on January 11, 2013. Both class action settlements were appealed to the Fifth Circuit. The Fifth Circuit affirmed the MDL Court's decision concerning the E&P Settlement on January 10, 2014, and also affirmed the MDL Court's decision concerning the interpretation of the E&P Settlement with respect to business economic loss claims on March 3, 2014. The appeal of the Medical Settlement, on the other hand, was voluntarily dismissed and the Medical Settlement became effective on February 12, 2014. The deadline for bringing a claim to the Medical Benefits Claims Administrator is one year from the effective date of the Settlement. Although neither the Company, ORM, or NRC are parties to the settlement agreements, the Company, ORM, and NRC are listed as released parties on the releases accompanying both settlement agreements. Consequently, barring any further successful appeal, class members who did not file timely requests for exclusion will be barred from pursuing economic loss, property damage, personal injury, medical monitoring, and/or other released claims against the Company, ORM, and NRC. The Company believes these settlements have reduced the Company and ORM's potential exposure, if any, from some of the pending actions described above, and continues to evaluate the settlements' impacts on these cases.

On January 29, 2013, HEPACO, LLC ("HEPACO"), served a demand for arbitration upon ORM, in which HEPACO claimed that ORM owed HEPACO an additional fee of \$20,291,178.92 under the parties' Management Services Agreement ("MSA"), dated June 1, 2010. HEPACO claimed that the MSA required ORM to pay HEPACO an additional fee of 30% of total charges paid under the MSA ("Surcharge") to compensate HEPACO for U.S. Longshoremen's and Harbor Workers' insurance or Jones Act insurance and related risks attendant to the work when a contract requires labor to be performed over, adjoining and/or in water. On June 23, 2014, ORM and HEPACO entered into an agreement to settle HEPACO's claims in the arbitration without a material impact to the Company's results of operations or cash flows and, on July 2, 2014, the HEPACO arbitration was dismissed with prejudice.

ORM is defending against two collective action lawsuits, each asserting failure to pay overtime with respect to individuals who provided service on the Deepwater Horizon oil spill response (the "DPH FLSA Actions") under the Fair Labor Standards Act ("FLSA"). These cases, Dennis Prejean v. O'Brien's Response Management Inc. (E.D. La., Case No.: 2:12-cv-01045) (the "Prejean Action") and Himmerite et al. v. O'Brien's Response Management Inc. et al. (E.D. La., Case No.: 2:12-cv-01533) (the "Himmerite Action"), were each brought on behalf of certain individuals who worked on the Deepwater Horizon oil spill response and who were classified as independent contractors. The Prejean and Himmerite Actions were each filed in the United States District Court for the Eastern District of Louisiana and then subsequently consolidated with the overall MDL, in which the Himmerite Action was stayed pursuant to procedures of the MDL. However, both the Prejean and Himmerite Actions were severed from the MDL on September 19, 2013, and referred to a Magistrate Judge for pretrial case management, including issuing a scheduling order, overseeing discovery, and any other preliminary matters. On October 31, 2013, ORM filed an answer in the Himmerite Action. In the Himmerite Action, pursuant to an earlier tolling order entered by the Court, the limitations periods for potential plaintiffs to opt-in to the action has been tolled pending further action by the Court. In the Prejean Action, ORM has answered the complaint and a scheduling order has been issued. On November 6, 2013, the Court conditionally certified a collective class in the Prejean Action. On December 9, 2013 the Court approved a jointly-submitted form notice and authorized the issuance of notice to all members of the conditionally certified class in the Prejean Action. On December 20, 2013, ORM served plaintiffs' counsel with a list containing information for approximately 330 potential class members in the Prejean Action. The deadline for plaintiffs to file executed consent forms with the Court has expired. As of February 28, 2014 the Court-ordered deadline for potential class members to opt into the class, 142 individuals have opted in. Although the Court has conditionally certified the Prejean class, the Court has not made a final ruling on whether a class exists. The Company intends to vigorously defend its position that a class should not be certified, and intends on filing a motion to decertify the Prejean class. The Court has also not yet ruled on any of the merits of Plaintiffs' claims. The Company does not expect the potential exposure, if any, resulting from these DPH FLSA Actions will have a material impact on the Company's results of operations or cash flows, but believes the actions are without merit and will continue to vigorously defend against them.

In a related action, Baylor Singleton et. al. v. O'Brien's Response Management Inc. et. al. (E.D. La., Case No.: 2:12-cv-01716) (the "Singleton Action"), which was also filed in the United States District Court for the Eastern District of Louisiana and in which plaintiffs alleged claims similar to those alleged in the Prejean and Himmerite Actions, the parties reached a full and final settlement agreement on February 13, 2014 with respect to all of the Plaintiff's individual claims for an undisclosed amount.

On April 11, 2014, the Court approved the parties' settlement and dismissed the Singleton Action with prejudice in its entirety. The Court also ordered that the tolling order which had been entered in the Singleton Action expired as of April 11, 2014.

In the course of the Company's business, it may agree to indemnify the counterparty to an agreement. If the indemnified party makes a successful claim for indemnification, the Company would be required to reimburse that party in accordance with the terms of the indemnification agreement. Indemnification agreements generally are subject to threshold amounts, specified claim periods and other restrictions and limitations.

In connection with the SES Business Transaction and the ORM Transaction, the Company remains contingently liable for certain obligations, including potential liabilities relating to work performed in connection with the *Deepwater Horizon* oil spill response. In the case of the SES Business Transaction, such potential liabilities may not exceed the consideration received by the Company for the SES Business Transaction and in the case of the ORM Transaction are subject to a negotiated cap. The Company currently is indemnified under contractual agreements with BP.

During the six months ended June 30, 2014, the Company received net litigation settlement proceeds of \$14.7 million from an equipment supplier relating to the May 2008 mechanical malfunction and fire onboard the *SEACOR Sherman*, an anchor handling towing supply vessel then under construction. Upon settlement of the litigation, the Company recognized a gain of \$14.7 million, which is included in other income (expense) in the accompanying condensed consolidated statements of income (loss).

In the normal course of its business, the Company becomes involved in various other litigation matters including, among other things, claims by third parties for alleged property damages and personal injuries. Management has used estimates in determining the Company's potential exposure to these matters and has recorded reserves in its financial statements related thereto where appropriate. It is possible that a change in the Company's estimates of that exposure could occur, but the Company does not expect such changes in estimated costs would have a material effect on the Company's consolidated financial position, results of operations or cash flows.

8. MULTI-EMPLOYER PENSION PLANS

During the six months ended June 30, 2014, the Company received notification from the American Maritime Officers Pension Plan (the "AMOPP") that the Company's withdrawal liability as of September 30, 2013 was \$46.5 million based on an actuarial valuation performed as of that date. That liability may change in future years based on various factors, primarily employee census. As of June 30, 2014, the Company has no intention to withdraw from the AMOPP and no deficit amounts have been invoiced. Depending upon the results of the future actuarial valuations and the ten-year rehabilitation plan, it is possible that the AMOPP will experience further funding deficits, requiring the Company to recognize additional payroll related operating expenses in the periods invoices are received or contribution levels are increased.

9. LONG-TERM DEBT

As of June 30, 2014, the Company had outstanding letters of credit totaling \$18.2 million with various expiration dates through 2018.

During the six months ended June 30, 2014, the Company made scheduled payments on long-term debt of \$7.2 million and made net repayments of \$6.3 million under inventory financing arrangements.

SEACOR's Board of Directors has previously authorized the Company to purchase any or all of its 7.375% Senior Notes due 2019, which may be acquired through open market purchases, privately negotiated transactions or otherwise, depending on market conditions. During the six months ended June 30, 2014, the Company did not repurchase any of its 7.375% Senior Notes due 2019.

10. STOCK REPURCHASES

SEACOR's Board of Directors previously approved a securities repurchase plan that authorizes the Company to acquire shares of SEACOR common stock, par value \$0.01 per share ("Common Stock"), which may be acquired through open market purchases, privately negotiated transactions or otherwise, depending on market conditions. During the six months ended June 30, 2014, the Company acquired 493,032 shares of Common Stock for treasury for an aggregate purchase price of \$39.2 million. As of June 30, 2014, the remaining authority under the repurchase plan was \$60.8 million.

On June 20, 2014, the Company executed a purchase agreement whereby the Company appointed Goldman, Sachs & Co. as broker to purchase Common Stock in compliance with the requirements of Rule 10b5-1(c)(l)(i) for the period June 19, 2014 through August 4, 2014. Subsequent to June 30, 2014 and through July 29, 2014, the Company purchased 321,377 shares

of Common Stock for treasury for an aggregate purchase price of \$25.4 million. Effective July 31, 2014, SEACOR's Board of Directors increased the Company's authority to repurchase Common Stock to \$150.0 million.

11. NONCONTROLLING INTERESTS IN SUBSIDIARIES

Noncontrolling interests in the Company's consolidated subsidiaries were as follows (amounts in thousands except noncontrolling interests' percentages):

	Noncontrolling				
	Interests	June 30, 2014		Decer	nber 31, 2013
Offshore Marine Services:					
Windcat Workboats Ltd.	25%	\$	7,761	\$	7,541
Other	1.8% - 33.3%		1,233		1,600
Inland River Services:					
Other	3.0% - 51.8%		1,204		2,612
Shipping Services:					
Sea-Vista	49%		72,886		_
Illinois Corn Processing	30%		16,864		10,894
Other	5.0% - 18.9%		1,751		1,929
		\$	101,699	\$	24,576

Windcat Workboats. Windcat Workboats Holdings Ltd. ("Windcat Workboats") owns and operates the Company's wind farm utility vessels that are primarily used to move personnel and supplies in the major offshore wind markets of Europe. As of June 30, 2014, the net assets of Windcat Workboats were \$31.0 million. During the six months ended June 30, 2014, the net loss of Windcat Workboats was \$0.1 million and the amount attributable to the noncontrolling interest was not material. During the six months ended June 30, 2013, the net loss of Windcat Workboats was \$2.7 million, of which \$0.7 million was attributable to noncontrolling interests.

SEA-Vista. On May 2, 2014, the Company issued a 49% noncontrolling interest to a financial investor in certain of its subsidiaries (collectively "SEA-Vista") that own and operate the Company's fleet of U.S.-flag product tankers used in the U.S. coastwise trade of crude oil, petroleum and specialty chemical products for \$145.7 million, net of \$3.2 million in issue costs. SEA-Vista also holds the Company's contracts for the construction of three 50,000 DWT (deadweight tonnage) product tankers with expected deliveries in May 2016, October 2016 and March 2017, as well as its Title XI bonds payable and reserve funds and certain other working capital. The Company has evaluated the noncontrolling interest's protective rights in SEA-Vista, its ownership interest, and the underlying terms and conditions that govern SEA-Vista's operations and determined that the Company controls SEA-Vista. As a result, the Company has consolidated the financial position, operating results and cash flows of SEA-Vista. As of June 30, 2014, the net assets of SEA-Vista were \$148.7 million. From May 2, 2014 through June 30, 2014, the net income of SEA-Vista was \$4.1 million, of which \$2.0 million was attributable to noncontrolling interests.

Illinois Corn Processing. Illinois Corn Processing LLC ("ICP") owns and operates an alcohol manufacturing, storage and distribution facility located in Pekin, IL. As of June 30, 2014, the net assets of ICP were \$62.5 million. During the six months ended June 30, 2014, the net income of ICP was \$23.8 million, of which \$6.0 million was attributable to noncontrolling interests. During the six months ended June 30, 2013, the net loss of ICP was \$3.5 million, of which \$1.3 million was attributable to noncontrolling interests.

For the twelve months ending March 31, 2014, the noncontrolling member of ICP had invoked a plant shutdown election that is available to each LLC member under certain circumstances; however, under its member rights, the Company elected to keep the plant in operation. As a result, the earnings and losses of ICP were disproportionately allocated to its members during the plant shutdown election period. Effective April 1, 2014, the noncontrolling member of ICP withdrew its plant shutdown election.

Inland River Services. During the six months ended June 30, 2014, the Company acquired the noncontrolling interest in one of its Inland River Services partnerships for \$3.1 million (\$2.1 million in cash and \$1.0 million through the distribution of an inland river towboat to the noncontrolling interest holder).

12. EARNINGS PER COMMON SHARE OF SEACOR

Basic earnings per common share of SEACOR are computed based on the weighted average number of common shares issued and outstanding during the relevant periods. Diluted earnings per common share of SEACOR are computed based on the weighted average number of common shares issued and outstanding plus the effect of potentially dilutive securities through the application of the treasury stock and if-converted methods. Dilutive securities for this purpose assumes restricted stock grants have vested, common shares have been issued pursuant to the exercise of outstanding stock options and common shares have been issued pursuant to the conversion of all outstanding convertible notes.

Computations of basic and diluted earnings per common share of SEACOR were as follows (in thousands, except share data):

	Three I	Months Ended Ju	ne 3	0,	Six M	onths Ended Jui	1e 30,	
	Net Income ttributable to SEACOR	Average O/S Shares		Per Share	Net Income (Loss) tributable to SEACOR	Average O/S Shares	P	er Share
2014								
Basic Weighted Average Common								
Shares Outstanding	\$ 21,067	19,989,402	\$	1.05	\$ 32,576	20,049,056	\$	1.62
Effect of Dilutive Share Awards:								
Options and Restricted Stock(1)	_	394,567			_	416,288		
Convertible Notes ⁽²⁾	3,148	4,200,525			6,287	4,200,525		
Diluted Weighted Average Common	,				.1			
Shares Outstanding	\$ 24,215	24,584,494	\$	0.98	\$ 38,863	24,665,869	\$	1.58
2013								
Basic Weighted Average Common								
Shares Outstanding	\$ 19,271	19,825,229	\$	0.97	\$ (1,717)	19,782,318	\$	(0.09)
Effect of Dilutive Share Awards:								
Options and Restricted Stock(1)	_	366,558			_	332,586		
Convertible Notes ⁽³⁾	3,044	4,200,525	_		_			
Diluted Weighted Average Common								
Shares Outstanding	\$ 22,315	24,392,312	\$	0.91	\$ (1,717)	20,114,904	\$	(0.09)

For the three months ended June 30, 2014 and 2013, diluted earnings per common share of SEACOR excluded 365,398 and 355,490 of certain share awards, respectively, as the effect of their inclusion in the computation would be anti-dilutive. For the six months ended June 30, 2014 and 2013, diluted earnings per common share of SEACOR excluded 288,510 and 503,726 of certain share awards, respectively, as the effect of their inclusion in the computation would be anti-dilutive.

13. SHARE BASED COMPENSATION

Transactions in connection with the Company's share based compensation plans during the six months ended June 30, 2014 were as follows:

Director stock awards granted	1,250
Employee Stock Purchase Plan ("ESPP") shares issued	16,720
Restricted stock awards granted	147,645
Restricted stock awards canceled	1,000
Shares released from Deferred Compensation Plan	
Stock Option Activities:	
Outstanding as of December 31, 2013	1,481,280
Granted	106,925
Exercised	(90,144)
Outstanding as of June 30, 2014	1,498,061
Shares available for future grants and ESPP purchases as of June 30, 2014	1,236,955

⁽²⁾ For the three and six months ended June 30, 2014, diluted earnings per common share of SEACOR excluded 1,825,326 common shares issuable pursuant to the Company's 3.0% Convertible Senior Notes as the effect of their inclusion in the computation would be anti-dilutive.

⁽³⁾ For the six months ended June 30, 2013, diluted earnings per common share of SEACOR excluded 4,200,525 common shares issuable pursuant to the Company's 2.5% Convertible Senior Notes as the effect of their inclusion in the computation would be anti-dilutive.

14. SEGMENT INFORMATION

Accounting standards require public business enterprises to report information about each of their operating business segments that exceed certain quantitative thresholds or meet certain other reporting requirements. Operating business segments have been defined as components of an enterprise about which separate financial information is available and is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company's segment presentation and basis of measurement of segment profit or loss are as previously described in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

The following tables summarize the operating results, capital expenditures and assets of the Company's reportable segments.

	Offshore Marine Services \$'000	Inland River Services \$'000	Shipping Services \$'000	ICP \$'000	Other \$'000	Corporate and Eliminations \$'000	Total \$'000

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Form 10-Q includes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Certain statements discussed in this Form 10-Q as well as in other reports, materials and oral statements that the Company releases from time to time constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Generally, words such as "anticipate," "estimate," "expect," "project," "intend," "believe," "plan," "target," "forecast" and similar expressions are intended to identify forward-looking statements. Such forward-looking statements concern management's expectations, strategic objectives, business prospects, anticipated economic performance and financial condition and other similar matters. These statements are not guarantees of future performance and actual events or results may differ significantly from these statements because actual events or results are subject to significant known and unknown risks, uncertainties and other important factors, including decreased demand and loss of revenues as a result of additional safety and certification requirements for drilling activities in the U.S. Gulf of Mexico and delayed approval of applications for such activities, the possibility of U.S. government implemented moratoriums directing operators to cease certain drilling activities in the U.S. Gulf of Mexico and any extension of such moratoriums (the "Moratoriums"), weakening demand for the Company's services as a result of unplanned customer suspensions, cancellations, rate reductions or non-renewals of vessel charters or failures to finalize commitments to charter vessels in response to Moratoriums, increased government legislation and regulation of the Company's businesses could increase cost of operations, increased competition if the Jones Act is repealed, liability, legal fees and costs in connection with the provision of emergency response services, including the Company's involvement in response to the oil spill as a result of the sinking of the Deepwater Horizon in April 2010, decreased demand for the Company's services as a result of declines in the global economy, declines in valuations in the global financial markets and a lack of liquidity in the credit sectors, including, interest rate fluctuations, availability of credit, inflation rates, change in laws, trade barriers, commodity prices and currency exchange fluctuations, the cyclical nature of the oil and gas industry, activity in foreign countries and changes in foreign political, military and economic conditions, changes in foreign and domestic oil and gas exploration and production activity, safety record requirements related to Offshore Marine Services and Shipping Services, decreased demand for Shipping Services due to construction of additional refined petroleum product, natural gas or crude oil pipelines or due to decreased demand for refined petroleum products, crude oil or chemical products or a change in existing methods of delivery, compliance with U.S. and foreign government laws and regulations, including environmental laws and regulations and economic sanctions, the dependence of Offshore Marine Services and Shipping Services on several customers, consolidation of the Company's customer base, the ongoing need to replace aging vessels, industry fleet capacity, restrictions imposed by the Shipping Acts on the amount of foreign ownership of the Company's Common Stock, operational risks of Offshore Marine Services, Inland River Services and Shipping Services, effects of adverse weather conditions and seasonality, the level of grain export volume, the effect of fuel prices on barge towing costs, variability in freight rates for inland river barges, the effect of international economic and political factors in Inland River Services' operations, sudden and unexpected changes in commodity prices, futures and options, global weather conditions, political instability, changes in currency exchanges rates, and product availability in agriculture commodity trading and logistics activities, adequacy of insurance coverage, the potential for a material weakness in the Company's internal controls over financial reporting and the Company's ability to remediate such potential material weaknesses, the attraction and retention of qualified personnel by the Company, and various other matters and factors, many of which are beyond the Company's control as well as those discussed in Item 1A (Risk Factors) of the Company's Annual report on Form 10-K. In addition, these statements constitute the Company's cautionary statements under the Private Securities Litigation Reform Act of 1995. It should be understood that it is not possible to predict or identify all such factors. Consequently, the preceding should not be considered to be a complete discussion of all potential risks or uncertainties. Forward-looking statements speak only as of the date of the document in which they are made. The Company disclaims any obligation or undertaking to provide any updates or revisions to any forward-looking statement to reflect any change in the Company's expectations or any change in events, conditions or circumstances on which the forward-looking statement is based, except as required by law. The forward-looking statements in this Form 10-Q should be evaluated together with the many uncertainties that affect the Company's businesses, particularly those mentioned under "Forward-Looking Statements" in Item 7 on the Company's Form 10-K and SEACOR's periodic reporting on Form 8-K (if any), which are incorporated by reference.

Overview

The Company's operations are divided into four main business segments – Offshore Marine Services, Inland River Services, Shipping Services, and Illinois Corn Processing ("ICP"). The Company also has activities that are referred to and described under Other that primarily include emergency and crisis services, agricultural commodity trading and logistics activities, lending and leasing activities and various other investments in 50% or less owned companies.

Discontinued Operations. The Company reports disposed businesses as discontinued operations when it has no continuing interest in the business. Discontinued operations includes the historical financial position, results of operations and cash flows of the operations previously reported as discontinued in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Consolidated Results of Operations

The sections below provide an analysis of the Company's operations by business segment for the three months ("Current Year Quarter") and six months ("Current Six Months") ended June 30, 2014, compared with the three months ("Prior Year Quarter") and six months ("Prior Six Months") ended June 30, 2013. See "Item 1. Financial Statements—Note 14. Segment Information" included in Part I of this Quarterly Report on Form 10-Q for consolidating segment tables for each period presented. Capitalized terms used and not specifically defined herein have the same meaning as such defined terms used in the Company's Annual report on Form 10-K for the year ended December 31, 2013.

Time Charter Operating Data. The table below sets forth the average rates per day worked, utilization and available days data for each group of Offshore Marine Services' vessels operating under time charters for the periods indicated. The rate per day worked is the ratio of total time charter revenues to the aggregate number of days worked. Utilization is the ratio of aggregate number of days worked to total calendar days available for work. Available days represents the total calendar days during which owned and chartered-in vessels are operated by the Company.

Current Year Quarter compared with Prior Year Quarter

Operating Revenues. Operating revenues were \$0.4 million lower for the Current Year Quarter compared with the Prior Year Quarter. Time charter revenues were \$1.2 million higher in the Current Year Quarter compared with the Prior Year Quarter.

In the U.S. Gulf of Mexico, time charter revenues were \$2.2 million higher in the Current Year Quarter compared with the Prior Year Quarter. Time charter revenues were \$7.7 million higher due to improved utilization and \$1.2 million higher due to the repositioning of vessels between geographic regions. Time charter revenues were \$1.3 million lower due to a decrease in average day rates, \$4.3 million lower due to net fleet dispositions and \$1.1 million lower due to the effect of cold-stacking vessels. As of June 30, 2014, the Company had two vessels cold-stacked in this region, compared with no vessels as of June 30, 2013.

In Africa, time charter revenues were \$2.3 million higher in the Current Year Quarter compared with the Prior Year Quarter. Time charter revenues were \$2.1 million higher due to improved utilization, \$0.4 million higher due to fleet additions and \$0.4 million higher due to the repositioning of vessels between geographic regions. Time charter revenues were \$0.6 million lower due to a decrease in average day rates.

In the Middle East, time charter revenues were \$1.9 million lower in the Current Year Quarter compared with the Prior Year Quarter. Time charter revenues were \$1.3 million lower primarily due to reduced utilization and \$0.6 million lower due to the repositioning of vessels between geographic regions.

In Brazil, Mexico and Central and South America, time charter revenues were \$4.7 million lower in the Current Year Quarter compared with the Prior Year Quarter. Time charter revenues were \$0.2 million higher due to improved utilization, \$4.3 million lower due to the repositioning of vessels between geographic regions and \$0.6 million lower due to a decrease in average day rates.

In Europe, excluding the wind farm utility vessels, time charter revenues were \$2.8 million higher in the Current Year Quarter compared with the Prior Year Quarter. Time charter revenues were \$0.4 million higher due to improved average day rates, \$0.6 million higher due to improved utilization and \$1.8 million higher due to favorable changes in currency exchange rates. Time charter revenues for the wind farm utility vessels were \$0.6 million higher in the Current Year Quarter compared with the Prior Year Quarter. Time charter revenues were \$0.4 million higher due to improved average day rates, \$0.5 million higher due to favorable changes in currency exchange rates and \$0.4 million higher due to net fleet additions. Time charter revenues were \$0.6 million lower due to the repositioning of vessels between geographic regions and \$0.1 million lower due to a decrease in utilization.

In Asia, time charter revenues were \$0.1 million lower in the Current Year Quarter compared with the Prior Year Quarter primarily due to reduced utilization.

Operating Expenses. Operating expenses were \$3.8 million lower for the Current Year Quarter compared with the Prior Year Quarter. Personnel costs were \$1.7 million higher primarily due to increased seafarer compensation costs. Repair and maintenance expenses were \$0.6 million lower primarily due to net fleet dispositions. Drydocking costs were \$3.9 million lower primarily due to a reduction in drydocking activity in the U.S. Gulf of Mexico. Insurance and loss reserves expense was \$0.8 million lower.

Administrative and General. Administrative and general expenses were \$0.8 million lower for the Current Year Quarter compared with the Prior Year Quarter.

Gains on Asset Dispositions. During the Current Year Quarter, the Company sold four offshore support vessels and other equipment for net proceeds of \$50.5 million and gains of \$14.5 million, of which \$2.5 million was recognized currently and \$12.0 million was deferred. In addition, the Company recognized previously deferred gains of \$1.0 million. During the Prior Year Quarter, the Company sold six offshore support vessels and other equipment for net proceeds of \$14.7 million and gains of \$7.9 million.

Operating Income. Excluding the impact of gains on asset dispositions and the impact of brokered vessel activity, operating income as a percentage of operating revenues was 10% in the Current Year Quarter compared with 8% in the Prior Year Quarter. The increase was primarily due to a reduction in drydocking costs in the U.S. Gulf of Mexico.

Other, net. During the Current Year Quarter, the Company received net litigation settlement proceeds of \$14.7 million from an equipment supplier relating to the May 2008 mechanical malfunction and fire onboard the *SEACOR Sherman*, an anchor handling towing supply vessel then under construction. Upon settlement of the litigation, the Company recognized a gain of \$14.7 million.

Equity in Earnings of 50% or Less Owned Companies, Net of Tax. Equity in earnings of 50% or less owned companies, net of tax, were \$5.5 million lower in the Current Year Quarter compared with the Prior Year Quarter. During the Prior Year Quarter, the Company acquired a controlling interest in C-Lift LLC through the acquisition of the partner's 50% interest and recognized a \$4.2 million gain, net of tax, upon marking its investment to fair value.

Current Six Months compared with Prior Six Months

Operating Revenues. Operating revenues were \$4.6 million higher for the Current Six Months compared with the Prior Six Months. Time charter revenues were \$5.3 million higher in the Current Six Months compared with the Prior Six Months.

In the U.S. Gulf of Mexico, time charter revenues were \$4.5 million lower in the Current Six Months compared with the Prior Six Months. Time charter revenues were \$3.7 million higher due to improved utilization, \$0.1 million higher due to an increase in average day rates, \$6.5 million lower due to net fleet dispositions, \$1.4 million lower due to the effect of cold-stacking vessels and \$0.4 million lower due to the repositioning of vessels between geographic regions. As of June 30, 2014, the Company had two vessels cold-stacked in this region, compared with no vessels as of June 30, 2013.

In Africa, time charter revenues were \$2.3 million higher in the Current Six Months compared with the Prior Six Months. Time charter revenues were \$2.7 million higher due to improved utilization, \$0.4 million higher due to fleet additions and \$0.4 million higher due to the repositioning of vessels between geographic regions. Time charter revenues were \$1.2 million lower due to a decrease in average day rates.

In the Middle East, time charter revenues were \$1.9 million lower in the Current Six Months compared with the Prior Six Months. Time charter revenues were \$2.5 million lower due to reduced utilization, \$0.6 million lower due to the repositioning of vessels between geographic regions and \$1.2 million higher due to improved average day rates.

In Brazil, Mexico and Central and South America, time charter revenues were \$2.6 million higher in the Current Six Months compared with the Prior Six Months. Time charter revenues were \$3.2 million higher due to improved utilization, \$0.2 million higher due to the repositioning of vessels between geographic regions and \$0.8 million lower due to a decrease in average day rates.

In Europe, excluding the wind farm utility vessels, time charter revenues were \$4.6 million higher in the Current Six Months compared with the Prior Six Months. Time charter revenues were \$1.0 million higher due to increased average day rates, \$3.1 million higher due to favorable changes in currency exchange rates and \$0.5 million higher due to improved utilization. Time charter revenues for the wind farm utility vessels were \$1.3 million higher in the Current Six Months compared with the Prior Six Months. Time charter revenues were \$0.8 million higher due to improved average day rates, \$0.8 million higher due to favorable changes in currency exchange rate, and \$0.8 million higher due to net fleet additions. Time charter revenues were \$0.5 million lower due to a decrease in average day rates, and \$0.6 million lower due to the repositioning of vessels between geographic regions.

In Asia, time charter revenues were \$0.9 million higher in the Current Six Months compared with the Prior Six Months primarily due to improved utilization.

Operating Expenses. Operating expenses were \$0.2 million higher for the Current Six Months compared with the Prior Six Months. Personnel costs were \$3.7 million higher primarily due to increased seafarer compensation costs. Repair and maintenance expenses were \$1.1 million higher primarily due to increased maintenance costs associated with the Company's liftboat fleet. Drydocking costs were \$4.1 million lower primarily due to a reduction in drydocking activity in the U.S. Gulf of Mexico, West Africa, and Brazil, Mexico and Central and South America. Insurance and loss reserves expense were \$1.2 million lower.

Administrative and General. Administrative and general expenses were \$0.5 million lower for the Current Six Months compared with the Prior Six Months.

Gains on Asset Dispositions. During the Current Six Months, the Company sold nine offshore support vessels and other equipment for net proceeds of \$60.8 million and gains of \$22.2 million, of which \$10.2 million was recognized currently and \$12.0 million was deferred. In addition, the Company recognized previously deferred gains of \$1.1 million. During the Prior Six Months, the Company sold eight offshore support vessels and other equipment for net proceeds of \$75.3 million and gains of \$10.2 million, all of which were recognized currently.

Operating Income. Excluding the impact of gains on asset dispositions and the impact of brokered vessel activity, operating income as a percentage of operating revenues was 7% in the Current Six Months compared with 5% in the Prior Six Months. The increase was primarily due to a reduction in drydocking costs.

Other, net. During the Current Six Months, the Company received net litigation settlement proceeds of \$14.7 million from an equipment supplier relating to the May 2008 mechanical malfunction and fire onboard the *SEACOR Sherman*, an anchor handling towing supply vessel then under construction. Upon settlement of the litigation, the Company recognized a gain of \$14.7 million.

Equity in Earnings of 50% or Less Owned Companies, Net of Tax. Equity in earnings of 50% or less owned companies, net of tax, were \$4.1 million lower in the Current Six Months compared with the Prior Six Months. During the Prior Six Months, the Company acquired a controlling interest in C-Lift LLC through the acquisition of the partner's 50% interest and recognized a \$4.2 million gain, net of tax, upon marking its investment to fair value.

The composition of Offshore Marine Services' fleet as of June 30 was as follows:

Dry-Cargo Barge Pools Operating Data. The following table presents, for the periods indicated, Inland River Services' interest in tons moved and its available barge days in the dry-cargo barge pools. Available barge days represents the total calendar days during which the Company's owned and chartered-in barges were in the pool.

	Three	Three Months Ended June 30,					Six Months Ended June 30,

	Days		Days		Days		Days			
Available barge days	54,669	·	51,917		104,545		104,015			

Operating Revenues. Operating revenues were \$8.7 million higher in the Current Year Quarter compared with the Prior Year Quarter and \$16.5 million higher in the Current Six Months compared with the Prior Year Six Months. Operating revenues for the dry-cargo barge pools were \$12.6 million higher and \$20.3 million higher in the Current Year Quarter and Current Six Months, respectively, primarily due to weaker demand for barge freight in the Prior Year Quarter and Prior Six Months related to drought conditions in 2012 that impacted crop yields. Operating revenues from liquid unit tow operations were \$0.6 million higher and \$1.3 million higher in the Current Year Quarter and Current Six Months, respectively, primarily due to higher rates and increased utilization. Operating revenues from terminal and fleeting operations were \$0.5 million lower in the Current Year Quarter primarily due to a seasonal decline in activity levels. Operating revenues from terminal operations and fleeting operations were \$1.6 million higher in the Current Six Months primarily due to increased activity levels. Operating revenues from inland river towboat operations and other activities were \$2.5 million lower and \$4.9 million lower in the Current Year Quarter and Current Six Months, respectively, primarily due to removing four inland river towboats from service.

Operating Expenses. Operating expenses were \$9.9 million higher in the Current Year Quarter compared with the Prior Year Quarter and \$13.1 million higher in the Current Six Months compared with the Prior Six Months. Operating expenses for the dry-cargo barge pools were \$11.4 million higher and \$15.5 million higher in the Current Year Quarter and Current Six Months, respectively, primarily due to increased activity levels discussed above and difficult river operating conditions. Operating expenses from the 10,000 barrel liquid tank barge operations were \$0.9 million higher and \$1.1 million higher in the Current Year Quarter and Current Six Months, respectively, primarily due to the cost of U.S. Coast Guard inspections and related repair expenditures. Operating expenses from terminal and fleeting operations were \$0.7 million higher in the Current Year Quarter primarily due to increased repair and maintenance expenditures for equipment during the seasonal decline in activity levels. Operating expenses from terminal and fleeting activities in the Current Six Months were \$1.2 million higher primarily due to increased wage and benefit costs and higher activity levels. Operating expenses from inland river towboat operations and other activities were \$1.8

million lower and \$3.1 million lower in the Current Year Quarter and Current Six Months, respectively, primarily due to the removal of four inland river towboats from service as discussed above.

Gains on Asset Dispositions. In the Current Year Quarter and Current Six Months, the Company sold other equipment for \$0.6 million for no gain and recognized previously deferred gains of \$0.8 million and \$1.7 million, respectively. During the Prior Year Quarter and Prior Six Months, the Company sold 16 dry-cargo barges and eight 30,000 barrel tank barges for proceeds of \$27.3 million and gains of \$6.0 million, of which \$3.6 million were recognized currently and \$2.4 million were deferred. In addition, the Company recognized previously deferred gains of \$0.7 million and \$1.4 million during the Prior Year Quarter and Prior Six Months, respectively.

Operating Income. Excluding the impact of gains on asset dispositions, operating loss as a percentage of operating revenues was 1% in the Current Year Quarter compared with operating income as a percentage of operating revenues of 3% in the Prior Year Quarter and operating income as a percentage of operating revenues was 6% in the Current Six Months compared with 4% in the Prior Six Months. The decrease in the Current Year Quarter was primarily due to the increase in barge logistic costs as a consequence of difficult river operating conditions. The improvement in the Current Six Months was primarily due to higher freight rates and increased activity levels in the dry-cargo barge pools and liquid unit tow operations and increased activity levels from fleeting operations.

Equity in Losses of 50% or Less Owned Companies, Net of Tax. During the Current Year Quarter and Current Six Months, the Company recognized \$3.3 million and \$3.7 million of equity losses, respectively, primarily from the continued intermediary operations following a structural failure of a terminal facility at the Port of Ibicuy, Argentina.

Fleet Count

The composition of Inland River Services' fleet as of June 30 was as follows:

	Owned	Joint Ventured Leased-in		Pooled or Managed	Total

Operating Revenues by Line of Service. The table below sets forth, for the periods indicated, the amount of operating revenues earned from charter arrangements.

	Three	Six I	Months End	ded June 30,				
	2014		2013		2014	2013		
	\$'000	%	\$'000	%	\$'000	%	\$'000	%
Operating Revenues:								
Petroleum Transportation:								
Time charter	13,552	25	10,832	22	26,956	26	20,996	22
Bareboat charter	8,649	16	8,649	18	17,202	16	17,202	18
Harbor towing and bunkering	21,379	40	19,096	40	42,299	40	38,224	41
Short-sea transportation	9,874	19	9,406	20	19,276	18	17,923	19
Technical management services	121		120		243		234	_
	53,575	100	48,103	100	105,976	100	94,579	100

Operating Revenues. Operating revenues were \$5.5 million higher in the Current Year Quarter compared with the Prior Year Quarter and \$11.4 million higher in the Current Six Months compared with the Prior Six Months. The increases in both periods were primarily due to increased time charter rates for three U.S.-flag product tankers, fewer days out-of-service for drydocking, more harbor traffic for harbor tugs and bunkering and higher cargo shipping demand for short-sea transportation.

Operating Expenses. Operating expenses were \$1.5 million lower in the Current Year Quarter compared with the Prior Year Quarter and \$1.2 million lower in the Current Six Months compared with the Prior Six Months. Personnel costs were higher in both periods primarily due to union pay rate increases for vessel crews. Drydocking costs were lower in both periods primarily due to drydocking one of the Company's U.S.-flag product tankers in the Prior Year Quarter and a reduction in drydocking activity for harbor towing and bunkering. Leased-in equipment charges were higher in both periods due to the sale and leaseback of one of the Company's U.S.-flag product tankers during the Current Year Quarter and the sale and leaseback of seven harbor tugs during the Prior Six Months.

Administrative and General. Administrative and general expenses were \$0.7 million lower in the Current Year Quarter compared with the Prior Year Quarter primarily due to lower legal fees.

Gains (Losses) on Asset Dispositions and Impairments, Net. During the Current Year Quarter, the Company sold one short-sea container/RORO vessel and sold and leased back one U.S.-flag product tanker for net proceeds of \$39.5 million and gains of \$28.4 million, all of which were deferred. During the Prior Six Months the Company recognized impairment charges of \$3.0 million related to two U.S.-flag harbor tugs while under construction, which were sold and leased back upon their completion.

Operating Income. Excluding the impact of gains on asset dispositions and impairments, operating income as a percentage of operating revenues was 24% in the Current Year Quarter compared with 10% in the Prior Year Quarter and 23% in the Current Six Months compared with 12% in the Prior Six Months. The increases were primarily due to the improvements in operating revenues and lower drydocking costs discussed above.

Other, net. During the Current Six Months, the Company expensed a \$4.0 million non-refundable deposit upon the expiration of a new build construction option.

Equity in Earnings of 50% or Less Owned Companies, Net of Tax. Equity in earnings for the Current Year Quarter and Current Six Months were primarily due to gains on the dilution of the Company's investment in Dorian following the completion of equity offerings in which the Company did not participate.

Fleet Count

The composition of Shipping Services' fleet as of June 30 was as follows:

⁽¹⁾ ICP routinely enters into exchange traded positions (primarily com futures) to offset its net commodity market exposure on raw material and finished goods inventory balances. As of June 30, 2014 and 2013, the net market exposure to com under its contracts and its raw material and inventory balances was not material.

Key Production and Sales Metrics. The table below sets forth, for the periods indicated, key production and sales metrics for Illinois Corn Processing:

	Three Months Ended June 30,			Six Months Ended June			June 30,	
		2014		2013		2014		2013
Production Inputs:								
Corn (average price per bushel)	\$	4.96	\$	7.21	\$	4.74	\$	7.27
Production Output Sold:								
Alcohol (gallons in thousands)		22,651		18,231		40,978		27,010
Dried Distiller's Grains with Solubles ("DDGS") (tons)		60,304		47,204		116,784		85,643
Production Output Sales Price (excluding freight):								
Alcohol (per gallon)	\$	2.47	\$	2.59	\$	2.40	\$	2.52
Dried Distiller's Grains with Solubles ("DDGS") (per ton)	\$	231.34	\$	243.06	\$	231.19	\$	255.75

Segment Profit (Loss). The improvement in the Current Year Quarter compared with the Prior Year Quarter and in the Current Six Months compared with the Prior Six Months was primarily due to higher sales volumes of alcohol and improved margins as a result of lower corn costs. In addition, during the Prior Six Months, the Company operated its plant at reduced capacity as industry-wide margins for fuel ethanol sales were negative due to a combination of high corn costs following the 2012 drought and low sales prices as a result of high U.S. fuel ethanol supplies.

⁽²⁾ Includes amounts attributable to both SEACOR and noncontrolling interests. See "Item 1. Financial Statements—Note 11. Noncontrolling Interests in Subsidiaries" included in Part I of this Quarterly Report on Form 10-Q.

Emergency and Crisis Services. Segment loss in the Current Year Quarter and Current Six Months includes \$6.7 million and \$8.5 million, respectively, of legal costs and provisions for certain litigation matters associated with the *Deepwater Horizon* oil spill for which the Company has indemnified Witt O'Brien's.

Other Activities. Segment loss in the Current Six Months includes a \$0.4 million impairment charge on an aircraft. Segment profit in the Prior Six Months was primarily due to a gain on the sale of real property.

Corporate and Eliminations

Other, net	29	(4)	(23)	(69)	

Corporate Expenses. Corporate expenses in the Current Six Months includes a \$3.5 million impairment charge on an aircraft.

Derivative losses, net. Derivative losses, net in the Prior Year Quarter and Prior Six Months were primarily due to losses from equity indices and forward currency exchange, option and future contracts.

⁽²⁾ The components of segment profit do not include interest income, which is a significant component of the Company's lending and leasing activities.

Other Income (Expense) not included in Segment Profit (Loss)

	Three Months End	led June 30,	Six Months Ended June 30,			
	2014	2013	2014	2013		
	\$'000	\$'000	\$'000	\$'000		
Interest income	6,030	3,218	10,073	6,385		
Interest expense	(10,458)	(7,922)	(21,861)	(20,762)		
Marketable security gains, net	731	6,557	5,801	10,552		
	(3,697)	1,853	(5,987)	(3,825)		

Interest Income. Interest income was higher in the Current Year Quarter and Current Six Months due to a contingent payment received on a note receivable in the Company's lending and leasing portfolio as well as additional interest earned on notes receivable from the Company's 50% or less owned companies.

Interest Expense. Interest expense was higher in the Current Six Months compared with the Prior Six Months primarily due to the issuance of the Company's 3.0% Convertible Senior Notes in November 2013, partially offset by higher capitalized interest.

Liquidity and Capital Resources

General

The Company's ongoing liquidity requirements arise primarily from working capital needs, capital commitments and its obligations to repay debt. The Company may use its liquidity to fund acquisitions, repurchase shares of SEACOR common stock, par value \$0.01 per share ("Common Stock"), for treasury or to make other investments. Sources of liquidity are cash balances, marketable securities, construction reserve funds, Title XI reserve funds and cash flows from operations. From time to time, the Company may secure additional liquidity through asset sales or the issuance of debt, shares of Common Stock or common stock of its subsidiaries, preferred stock or a combination thereof.

As of June 30, 2014, the Company's unfunded capital commitments were \$412.8 million and included: \$86.5 million for 13 offshore support vessels; \$1.1 million for two inland river tank barges; \$4.6 million for four inland river towboats; \$230.2 million for three U.S.-flag product tankers; \$78.4 million for one U.S.-flag articulated tug-barge; and \$12.0 million for other equipment and improvements. These commitments are payable as follows: \$99.7 million is payable during the remainder of 2014; \$303.8 million is payable during 2015-2016; and \$9.3 million is payable during 2017.

SEACOR's Board of Directors has previously authorized the Company to purchase any or all of its 7.375% Senior Notes due 2019, which may be acquired through open market purchases, privately negotiated transactions or otherwise, depending on market conditions. During the six months ended June 30, 2014, the Company did not repurchase any of its 7.375% Senior Notes due 2019. As of June 30, 2014, the aggregate outstanding par value of the Company's 7.375% Senior Notes due 2019 was \$233.5 million.

SEACOR's Board of Directors previously approved a securities repurchase plan that authorizes the Company to acquire Common Stock, which may be acquired through open market purchases, privately negotiated transactions or otherwise, depending on market conditions. As of June 30, 2014, the remaining authority under the repurchase plan was \$60.8 million. Effective July 31, 2014, SEACOR's Board of Directors increased the Company's authority to repurchase Common Stock to \$150.0 million.

As of June 30, 2014, the Company had outstanding letters of credit totaling \$18.2\$ million with various expiration dates through 2018 and outstanding debt of \$873.9\$ million.

As of June 30, 2014, the Company held balances of cash, cash equivalents, restricted cash, marketable securities, construction reserve funds and Title XI reserve funds totaling \$825.9 million. As of June 30, 2014, construction reserve funds of \$315.3 million were classified as non-current assets in the accompanying condensed consolidated balance sheets as the Company has the intent and ability to use the funds to acquire equipment.

Operating Activities

Cash flows provided by operating activities increased by \$5.3 million in the Current Six Months compared with the Prior Six Months. The components of cash flows provided by (used in) operating activities during the Current Six Months and Prior Six Months were as follows:

	Six Months Ended June 30,		
	2014	2013	
	\$'000	\$'000	
Operating income from continuing operations before depreciation, amortization and gains on asset dispositions and impairments, net	114,596	71,238

Cash settlements on derivative transactions, net	(769)	(4,784)	
Dividends received from 50% or less owned companies	665	1,605	
Interest paid, excluding capitalized interest	(12,796)	(18,289)	
Income taxes paid, net of amounts refunded	(7,414)	(629)	
Other	21,713	10,954	
Total cash flows provided by operating activities	107,866	102,533	

Operating income from continuing operations before depreciation, amortization and gains on asset dispositions and impairments, net was \$43.4 million higher in the Current Six Months compared with the Prior Six Months. See "Consolidated Results of Operations" included above for a discussion of the results of each of the Company's business segments.

Changes in operating assets and liabilities before interest and income taxes in the Prior Six Months of \$32.0 million was primarily due to reduced working capital needs of Inland River Services and the Spin-off of Era Group.

Other cash flows provided by operating activities in the Current Six Months include litigation settlement proceeds of \$14.7 million from an equipment supplier relating to the May 2008 mechanical malfunction and fire onboard the SEACOR Sherman, an anchor handling towing supply vessel then under construction.

Investing Activities

During the Current Six Months, net cash used by investing activities of continuing operations was \$278.7 million primarily as follows:

Capital expenditures were \$273.7 million including \$148.3 million of progress payments toward the construction of three U.S.flag product tankers. Equipment deliveries during the period included two crew boats, one supply boat, one wind farm utility
vessel, 65 inland river dry-cargo barges and one inland river towboat.

- The Company sold five crew boats, three supply boats, one wind farm utility vessel, one U.S.-flag product tanker, which was leased back, one foreign-flag short-sea container/RORO vessel and other property and equipment for net proceeds of \$100.9 million (\$75.3 million in cash and \$25.6 million in seller financing). The Company also received deposits of \$2.7 million related to future offshore support vessel sales.
- The Company made investments in its 50% or less owned companies of \$21.5 million, including \$12.2 million to SCFCo Holdings, \$4.8 million to Cleancor, \$1.6 million to OSV Partners and \$1.3 million to SeaJon.
- The Company received \$10.0 million from its 50% or less owned companies.
- The Company made investments of \$6.4 million in third party leases and notes receivable, net.
- Construction reserve funds account transactions included deposits of \$113.5 million and withdrawals of \$50.4 million.

During the Prior Six Months, net cash provided by investing activities of continuing operations was \$71.5 million primarily as follows:

- Capital expenditures were \$87.9 million. Equipment deliveries included one specialty offshore support vessel, two liftboats, two wind farm utility vessels, two liquid tank barges and three U.S.-flag harbor tugs.
- The Company sold two crew boats, one mini-supply vessel, one supply vessel, one specialty offshore support vessel, three liftboats, 16 dry-cargo barges, eight liquid tank barges, two U.S.-flag harbor tugs and other property and equipment for net proceeds of \$132.4 million (\$125.1 million in cash, \$0.2 million in vendor credits and \$7.1 million in seller financing). The Company also received deposits of \$0.3 million related to future equipment sales.
- Construction reserve funds account transactions included withdrawals of \$55.8 million and deposits of \$10.6 million.
- The Company released restricted cash of \$11.5 million.
- The Company made investments in its 50% or less owned companies of \$26.8 million, including \$11.5 million in Sea-Cat Crewzer II and \$7.6 million in MexMar.
- On June 6, 2013, the Company acquired a 100% controlling interest in C-Lift LLC through the acquisition of its partners' interest for \$12.7 million in cash subject to certain working capital adjustments.

During the Prior Six Months, net cash used in investing activities of discontinued operations of \$8.5 million was primarily due to capital expenditures of Era Group prior to the Spin-off.

Financing Activities

During the Current Six Months, net cash provided by financing activities of continuing operations was \$95.8 million. The Company:

- made scheduled payments on long-term debt and capital lease obligations of \$7.2 million;
- made net repayments on inventory financing arrangements of \$6.3 million;
- issued a noncontrolling interest in SEA-Vista for \$145.1 million, net of issue costs:
- received \$6.3 million from share award plans;
- acquired for treasury 493,032 shares of Common Stock for an aggregate purchase price of \$39.2 million (subsequent to the Current Six Months and through July 29, 2014, the Company purchased 321,377 shares of Common Stock for treasury for an aggregate purchase price of \$25.4 million).

During the Prior Six Months, net cash used by financing activities of continuing operations was \$2.5 million. The Company:

- made scheduled payments on long-term debt and capital lease obligations of \$10.0 million;
- incurred net borrowings on inventory financing arrangements of \$2.4 million;
- received \$8.8 million from share award plans.

During the Prior Six Months, net cash used in financing activities of discontinued operations was \$14.0 million primarily representing Era Group's cash balance distributed in the Spin-off.

Short and Long-Term Liquidity Requirements

To date, the Company's liquidity has not been materially impacted by the current credit environment and management does not expect that it will be materially impacted in the near future. The Company anticipates it will continue to generate positive cash flows from operations and that these cash flows will be adequate to meet the Company's working capital requirements. In

support of the Company's capital expenditure program or other liquidity requirements, the Company may: use its cash balances; sell securities; utilize construction reserve funds; sell assets; enter into sale and leaseback transactions for equipment; issue debt, shares of Common Stock or common stock of its subsidiaries or preferred stock; or a combination thereof.

The Company's long-term liquidity is dependent upon its ability to generate operating profits sufficient to meet its requirements for working capital, capital expenditures and a reasonable return on shareholders' investment. The Company believes that earning such operating profits will permit it to maintain its access to favorably priced debt, equity or off-balance sheet financing arrangements. Management will continue to closely monitor the Company's liquidity and the credit and capital markets.

Off-Balance Sheet Arrangements

For a discussion of the Company's off-balance sheet arrangements, refer to Liquidity and Capital Resources contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. There has been no material change in the Company's off-balance sheet arrangements during the Current Six Months.

Contractual Obligations and Commercial Commitments

For a discussion of the Company's contractual obligations and commercial commitments, refer to Liquidity and Capital Resources contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. There has been no material change in the Company's contractual obligations and commercial commitments during the Current Six Months.

Contingencies

On July 20, 2010, two individuals purporting to represent a class commenced a civil action in the Civil District Court for the Parish of Orleans in the State of Louisiana, John Wunstell, Jr. and Kelly Blanchard v. BP, et al., No. 2010-7437 (Division K) (the "Wunstell Action"), in which they assert, among other theories, that Mr. Wunstell suffered injuries as a result of his exposure to certain noxious fumes and chemicals in connection with the provision of remediation, containment and response services by ORM, a subsidiary of the Company prior to the ORM Transaction, during the *Deepwater Horizon* oil spill response and clean-up in the U.S Gulf of Mexico. The action now is part of the overall multi-district litigation, In re Oil Spill by the Oil Rig "*Deepwater Horizon*", MDL No. 2179 filed in the U.S. District Court for the Eastern District of Louisiana ("MDL"). The complaint also seeks to establish a "class-wide court-supervised medical monitoring program" for all individuals "participating in BP's Deepwater Horizon Vessels of Opportunity Program and/or Horizon Response Program" who allegedly experienced injuries similar to those of Mr. Wunstell. The Company believes this lawsuit has no merit and will continue to vigorously defend the action and pursuant to contractual agreements with the responsible party, the responsible party has agreed, subject to certain potential limitations, to indemnify and defend ORM in connection with the Wunstell Action and claims asserted in the MDL, discussed further below. Although the Company is unable to estimate the potential exposure, if any, resulting from this matter, the Company does not expect it will have a material effect on the Company's consolidated financial position, results of operations or cash flows.

On December 15, 2010, ORM and NRC, subsidiaries of the Company prior to the ORM Transaction and SES Business Transaction, respectively, were named as defendants in one of the several consolidated "master complaints" that have been filed in the overall MDL. The master complaint naming ORM and NRC asserts various claims on behalf of a putative class against multiple defendants concerning the cleanup activities generally, and the use of dispersants specifically. By court order, the Wunstell Action has been stayed as a result of the filing of the referenced master complaint. The Company believes that the claims asserted against ORM and NRC in the master complaint have no merit and on February 28, 2011, ORM and NRC moved to dismiss all claims against them in the master complaint on legal grounds. On September 30, 2011, the Court granted in part and denied in part the motion to dismiss that ORM and NRC had filed (an amended decision was issued on October 4, 2011 that corrected several grammatical errors and non-substantive oversights in the original order). Although the Court refused to dismiss the referenced master complaint in its entirety at that time, the Court did recognize the validity of the "derivative immunity" and "implied preemption" arguments that ORM and NRC advanced and directed ORM and NRC to (i) conduct limited discovery to develop evidence to support those arguments and (ii) then re-assert the arguments. The Court did, however, dismiss all state-law claims and certain other claims that had been asserted in the referenced master complaint, and dismissed the claims of all plaintiffs that have failed to allege a legally-sufficient injury. A schedule for limited discovery and motion practice was established by the Court and, in accordance with that schedule, ORM and NRC filed for summary judgment re-asserting their derivative immunity and implied preemption arguments on May 18, 2012. Those motions were argued on July 13, 2012 and are still pending decision. In addition to the indemnity provided to ORM, pursuant to contractual agreements with the responsible party, the responsible party has agreed, subject to certain potential limitations, to indemnify and defend ORM and NRC in connection with these claims in the MDL. Although the Company is unable to estimate the potential exposure, if any, resulting from this matter, the Company does not expect it will have a material effect on the Company's consolidated financial position, results of operations or cash flows.

Subsequent to the filing of the referenced master complaint, ten additional individual civil actions have been filed in or removed to the U.S. District Court for the Eastern District of Louisiana concerning the clean-up activities generally, which name the Company, ORM and/or NRC as defendants or third-party defendants and are part of the overall MDL. By court order, all of these additional individuals' cases have been stayed until further notice. On April 8, 2011, ORM was named as a defendant in

Johnson Bros. Corporation of Louisiana v. BP, PLC, et al., No. 2:11-CV-00781 (E.D. La.), which is a suit by an individual business seeking damages allegedly caused by a delay on a construction project alleged to have resulted from the clean-up operations. On April 13, 2011, the Company was named as a defendant in Mason v. Seacor Marine, LLC, No. 2:11-CV-00826 (E.D. La.), an action in which plaintiff, a former employee, alleges sustaining personal injuries in connection with responding to the explosion and fire, but also in the months thereafter in connection with the clean-up of oil and dispersants while a member of the crew of the M/V Seacor Vanguard. Although the case is subject to the MDL Court's stay of individual proceedings, the employee moved to sever his case from the MDL on July 16, 2012, which the Court denied on March 5, 2013. The employee filed a motion asking the Court to reconsider, which was denied on May 3, 2013, and the employee filed a Notice of Appeal to the U.S. Court of Appeals for the Fifth Circuit ("Fifth Circuit") on May 22, 2013. On July 24, 2013, the Company filed a motion to dismiss for lack of appellate jurisdiction, which was granted on August 16, 2013. The same company employee has also brought a claim in the M/V Seacor Vanguard vessel's limitation action in the MDL which relates to any actions that may have been taken by vessels owned by the Company to extinguish the fire. On April 15, 2011, ORM and NRC were named as defendants in James and Krista Pearson v. BP Exploration & Production, Inc. ("BP Exploration"), et al., No. 2:11-CV-00863 (E.D. La.), which is a suit by a husband and wife, who allegedly participated in the clean-up effort and are seeking damages for personal injury, property damage to their boat, and amounts allegedly due under contract. On April 15, 2011, ORM and NRC were named as defendants in Thomas Edward Black v. BP Exploration, et al., No. 2:11-CV-00867 (E.D. La.), which is a suit by an individual who is seeking damages for lost income because he allegedly could not find work in the fishing industry after the oil spill. On April 20, 2011, a complaint was filed in Darnell Alexander, et al. v. BP, PLC, et al., No. 2:11-CV-00951 (E.D. La.) on behalf of 117 individual plaintiffs that seek to adopt the allegations made in the referenced master complaint against ORM and NRC (and the other defendants). Plaintiffs in this matter have since been granted leave to amend their complaint to include 410 additional individual plaintiffs. On October 3, 2012, ORM and NRC were served with a Rule 14(c) Third-Party Complaint by Jambon Supplier II, L.L.C. and Jambon Marine Holdings L.L.C. in their Limitation of Liability action, In the Matter of Jambon Supplier II, L.L.C., et al., No. 2:12-CV-00426 (E.D. La.), This Third-Party Complaint alleges that if claimant David Dinwiddie, who served as a clean-up crewmember aboard the M/V JAMBON SUPPLIER II vessel during the clean-up efforts, was injured as a result of his exposure to dispersants and chemicals during the course and scope of his employment, then said injuries were caused by the third-party defendants. On November 25, 2012, ORM was named as a defendant in Victoria Sanchez v. American Pollution Control Corp. et al., No. 2:12-CV-00164 (E.D. La.), a maritime suit filed by an individual who allegedly participated in the clean-up effort and sustained personal injuries during the course of such employment. On December 17, 2012, the Court unsealed a False Claims Act lawsuit naming ORM as a defendant, Dillon v. BP, PLC et al., No. 2:12-CV-00987 (E.D. La.)., which is a suit by an individual seeking damages and penalties arising from alleged false reports and claims made to the federal government with respect to the amount of oil burned and dispersed during the clean-up. The federal government has declined to intervene in this suit. On April 8, 2013, the Company, ORM, and NRC were named as defendants in William and Dianna Fitzgerald v. BP Exploration et al., No. 2:13-CV-00650 (E.D. La.), which is a suit by a husband and wife whose son allegedly participated in the clean-up effort and became ill as a result of his exposure to oil and dispersants. Finally, on April 17, 2013, ORM was named as a defendant in Danos et al. v. BP America Production Co. et al., No. 2:13-CV-03747 (removed to E.D. La.), which is a suit by eight individuals seeking damages for dispersant exposure either as a result of their work during clean-up operations or as a result of their residence in the Gulf. The Company is unable to estimate the potential exposure, if any, resulting from these matters but believes they are without merit and does not expect that they will have a material effect on its consolidated financial position, results of operations or cash flows.

On February 18, 2011, Triton Asset Leasing GmbH, Transocean Holdings LLC, Transocean Offshore Deepwater Drilling Inc., and Transocean Deepwater Inc. (collectively "Transocean") named ORM and NRC as third-party defendants in a Rule 14(c) Third-Party Complaint in Transocean's own Limitation of Liability Act action, which is part of the overall MDL, tendering to ORM and NRC the claims in the referenced master complaint that have already been asserted against ORM and NRC. Transocean, Cameron International Corporation, Halliburton Energy Services, Inc., and M-I L.L.C. also filed cross-claims against ORM and NRC for contribution and tort indemnity should they be found liable for any damages in Transocean's Limitation of Liability Act action and ORM and NRC have asserted counterclaims against those same parties for identical relief. Weatherford U.S., L.P. and Weatherford International, Inc. (collectively "Weatherford") had also filed cross-claims against ORM and NRC, but moved to voluntarily dismiss these cross-claims without prejudice on February 8, 2013. The Court granted Weatherford's motion that same day. Transocean's limitation action, and thus the remainder of the aforementioned cross-claims, remains pending. As indicated above, the Company is unable to estimate the potential exposure, if any, resulting from these actions but believes they are without merit and does not expect that these matters will have a material effect on its consolidated financial position, results of operations or cash flows.

On November 16, 2012, 668 individuals who served as beach clean-up workers in Escambia County, Florida during the *Deepwater Horizon* oil spill response commenced a civil action in the Circuit Court for the First Judicial Circuit of Florida, in and for Escambia County, Abney et al. v. Plant Performance Services, LLC et al., No. 2012-CA-002947, in which they allege, among other things, that ORM and other defendants engaged in the contamination of Florida waters and beaches in violation of Florida Statutes Chapter 376 and injured the plaintiffs by exposing them to dispersants during the course and scope of their employment. The case was removed to the U.S. District Court for the Northern District of Florida on January 13, 2013, Abney et al. v. Plant Performance Services, LLC et al., No. 3:13-CV-00024 (N.D. Fla.), and on January 16, 2013, the United States Judicial Panel on

Multidistrict Litigation ("JPML") issued a Conditional Transfer Order ("CTO") transferring the case to the MDL, subject to any timely-filed notice of objection from the plaintiffs. Upon receipt of a notice of objection from the plaintiffs, a briefing schedule was set by the JPML, and so a stay of proceedings and suspension of deadlines was sought and obtained by the Court in the U.S. District Court for the Northern District of Florida. Following briefing before the JPML, the case was transferred to the U.S. District Court for the Eastern District of Louisiana and consolidated with the MDL on April 2, 2013. On April 22, 2013, a companion case to this matter was filed in the U.S. District Court for the Northern District of Florida, Abood et al. v. Plant Performance Services, LLC et al., No. 3:13-CV-00284 (N.D. Fla.), which alleges identical allegations against the same parties but names an additional 174 plaintiffs, all of whom served as clean-up workers in various Florida counties during the *Deepwater Horizon* oil spill response. A CTO was issued by the JPML on May 2, 2013, no objection was filed by the plaintiffs, and the case was transferred to the U.S. District Court for the Eastern District of Louisiana and consolidated with the MDL on May 10, 2013. By court order, both of these matters have been stayed until further notice. The Company is unable to estimate the potential exposure, if any, resulting from these matters but believes they are without merit and does not expect that these matters will have a material effect on its consolidated financial position, results of operations or cash flows.

Separately, on March 2, 2012, the Court announced that BP Exploration and BP America Production Company ("BP America") (collectively "BP") and the plaintiffs had reached an agreement on the terms of two proposed class action settlements that will resolve, among other things, plaintiffs' economic loss claims and clean-up related claims against BP. The parties filed their proposed settlement agreements on April 18, 2012 along with motions seeking preliminary approval of the settlements. The Court held a hearing on April 25, 2012 to consider those motions and preliminarily approved both settlements on May 2, 2012. A final fairness hearing took place on November 8, 2012. The Court granted final approval to the Economic and Property Damages Class Action Settlement ("E&P Settlement") on December 21, 2012, and granted final approval to the Medical Benefits Class Action Settlement ("Medical Settlement") on January 11, 2013. Both class action settlements were appealed to the Fifth Circuit. The Fifth Circuit affirmed the MDL Court's decision concerning the E&P Settlement on January 10, 2014, and also affirmed the MDL Court's decision concerning the interpretation of the E&P Settlement with respect to business economic loss claims on March 3, 2014. The appeal of the Medical Settlement, on the other hand, was voluntarily dismissed and the Medical Settlement became effective on February 12, 2014. The deadline for bringing a claim to the Medical Benefits Claims Administrator is one year from the effective date of the Settlement. Although neither the Company, ORM, or NRC are parties to the settlement agreements, the Company, ORM, and NRC are listed as released parties on the releases accompanying both settlement agreements. Consequently, barring any further successful appeal, class members who did not file timely requests for exclusion will be barred from pursuing economic loss, property damage, personal injury, medical monitoring, and/or other released claims against the Company, ORM, and NRC. The Company believes these settlements have reduced the Company and ORM's potential exposure, if any, from some of the pending actions described above, and continues to evaluate the settlements' impacts on these cases.

On January 29, 2013, HEPACO, LLC ("HEPACO"), served a demand for arbitration upon ORM, in which HEPACO claimed that ORM owed HEPACO an additional fee of \$20,291,178.92 under the parties' Management Services Agreement ("MSA"), dated June 1, 2010. HEPACO claimed that the MSA required ORM to pay HEPACO an additional fee of 30% of total charges paid under the MSA ("Surcharge") to compensate HEPACO for U.S. Longshoremen's and Harbor Workers' insurance or Jones Act insurance and related risks attendant to the work when a contract requires labor to be performed over, adjoining and/or in water. On June 23, 2014, ORM and HEPACO entered into an agreement to settle HEPACO's claims in the arbitration without a material impact to the Company's results of operations or cash flows and, on July 2, 2014, the HEPACO arbitration was dismissed with prejudice.

ORM is defending against two collective action lawsuits, each asserting failure to pay overtime with respect to individuals who provided service on the Deepwater Horizon oil spill response (the "DPH FLSA Actions") under the Fair Labor Standards Act ("FLSA"). These cases, Dennis Prejean v. O'Brien's Response Management Inc. (E.D. La., Case No.: 2:12-cv-01045) (the "Prejean Action") and Himmerite et al. v. O'Brien's Response Management Inc. et al. (E.D. La., Case No.: 2:12-cv-01533) (the "Himmerite Action"), were each brought on behalf of certain individuals who worked on the Deepwater Horizon oil spill response and who were classified as independent contractors. The Prejean and Himmerite Actions were each filed in the United States District Court for the Eastern District of Louisiana and then subsequently consolidated with the overall MDL, in which the Himmerite Action was stayed pursuant to procedures of the MDL. However, both the Prejean and Himmerite Actions were severed from the MDL on September 19, 2013, and referred to a Magistrate Judge for pretrial case management, including issuing a scheduling order, overseeing discovery, and any other preliminary matters. On October 31, 2013, ORM filed an answer in the Himmerite Action. In the Himmerite Action, pursuant to an earlier tolling order entered by the Court, the limitations periods for potential plaintiffs to opt-in to the action has been tolled pending further action by the Court. In the Prejean Action, ORM has answered the complaint and a scheduling order has been issued. On November 6, 2013, the Court conditionally certified a collective class in the Prejean Action. On December 9, 2013 the Court approved a jointly-submitted form notice and authorized the issuance of notice to all members of the conditionally certified class in the Prejean Action. On December 20, 2013, ORM served plaintiffs' counsel with a list containing information for approximately 330 potential class members in the Prejean Action. The deadline for plaintiffs to file executed consent forms with the Court has expired. As of February 28, 2014 the Court-ordered deadline for potential class members to opt into the class, 142 individuals have opted in. Although the Court has conditionally certified the

Prejean class, the Court has not made a final ruling on whether a class exists. The Company intends to vigorously defend its position that a class should not be certified, and intends on filing a motion to decertify the Prejean class. The Court has also not yet ruled on any of the merits of Plaintiffs' claims. The Company does not expect the potential exposure, if any, resulting from these DPH FLSA Actions will have a material impact on the Company's results of operations or cash flows, but believes the actions are without merit and will continue to vigorously defend against them.

In a related action, Baylor Singleton et. al. v. O'Brien's Response Management Inc. et. al. (E.D. La., Case No.: 2:12-cv-01716) (the "Singleton Action"), which was also filed in the United States District Court for the Eastern District of Louisiana and in which plaintiffs alleged claims similar to those alleged in the Prejean and Himmerite Actions, the parties reached a full and final settlement agreement on February 13, 2014 with respect to all of the Plaintiff's individual claims for an undisclosed amount. On April 11, 2014, the Court approved the parties' settlement and dismissed the Singleton Action with prejudice in its entirety. The Court also ordered that the tolling order which had been entered in the Singleton Action expired as of April 11, 2014.

In the course of the Company's business, it may agree to indemnify the counterparty to an agreement. If the indemnified party makes a successful claim for indemnification, the Company would be required to reimburse that party in accordance with the terms of the indemnification agreement. Indemnification agreements generally are subject to threshold amounts, specified claim periods and other restrictions and limitations.

In connection with the SES Business Transaction and the ORM Transaction, the Company remains contingently liable for certain obligations, including potential liabilities relating to work performed in connection with the *Deepwater Horizon* oil spill response. In the case of the SES Business Transaction, such potential liabilities may not exceed the consideration received by the Company for the SES Business Transaction and in the case of the ORM Transaction are subject to a negotiated cap. The Company currently is indemnified under contractual agreements with BP.

During the six months ended June 30, 2014, the Company received net litigation settlement proceeds of \$14.7 million from an equipment supplier relating to the May 2008 mechanical malfunction and fire onboard the *SEACOR Sherman*, an anchor handling towing supply vessel then under construction. Upon settlement of the litigation, the Company recognized a gain of \$14.7 million.

In the normal course of its business, the Company becomes involved in various other litigation matters including, among other things, claims by third parties for alleged property damages and personal injuries. Management has used estimates in determining the Company's potential exposure to these matters and has recorded reserves in its financial statements related thereto where appropriate. It is possible that a change in the Company's estimates of that exposure could occur, but the Company does not expect such changes in estimated costs would have a material effect on the Company's consolidated financial position, results of operations or cash flows.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of the Company's exposure to market risk, refer to Item 7A, Quantitative and Qualitative Disclosures About Market Risk, contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. There has been no significant change in the Company's exposure to market risk during the Current Six Months.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

With the participation of the Company's principal executive officer and principal financial officer, management evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of June 30, 2014. Based on their evaluation, the Company's principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures were effective as of June 30, 2014.

The Company's disclosure controls and procedures have been designed to ensure that the Company records, processes, accumulates and communicates information to management, including the Company's principal executive officer and principal financial officer, to allow timely decisions regarding required disclosures and submission within the time periods specified in the Security and Exchange Commission's rules and forms. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those determined to be effective can provide only a level of reasonable assurance with respect to financial statement preparation and presentation.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the three months ended June 30, 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

For a description of developments with respect to pending legal proceedings described in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013, see Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations-Contingencies" in this Quarterly Report on Form 10-Q.

ITEM 1A. RISK FACTORS

There have been no material changes with respect to this item from the disclosure included in the Company's 2013 Annual Report on Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(c) This table provides information with respect to purchases by the Company of shares of its Common Stock during the Current Year Ouarter:

	Total Number Of Shares	Av	erage Price Paid	Total Number of Shares Purchased as Part of Publicly Announced	Maximum Value of hares that may Yet be Purchased under the
<u>Period</u>	Purchased		Per Share	Plans or Programs	Plans or Programs ^{(1) (2)}
April 1 – 30, 2014	200	\$	80.96	_	\$ 99,983,809
May $1 - 31$, 2014	421,130	\$	79.46	_	\$ 66,521,343
June 1 – 30, 2014	71,702	\$	79.94	_	\$ 60,789,399

On June 20, 2014, the Company executed a purchase agreement whereby the Company appointed Goldman, Sachs & Co. as broker to purchase the Company's stock in compliance with the requirements of Rule 10b5-1(c)(1)(i) for the period June 19, 2014 through August 4, 2014. Subsequent to June 30, 2014 and through July 29, 2014, the Company purchased 321,377 shares for treasury for an aggregate purchase price of \$25.4 million.

ITEM 3. DEFAULT UPON SENIOR SECURITIES

Not applicable.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

Not applicable.

⁽²⁾ Since February 1997, SEACOR's Board of Directors authorized the repurchase of Common Stock, certain debt or a combination thereof. From time to time thereafter, and most recently on July 31, 2014, SEACOR's Board of Directors increased the authority to repurchase Common Stock to \$150.0 million.

CERTIFICATION

I, Charles Fabrikant, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of SEACOR Holdings
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our
 conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this
 report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
